

Errata to Mitigated Negative Declaration

State Clearing House No. 2026070068

August 18, 2026

Project Title: Spring Mountain Road Vineyard Agricultural Erosion Control Plan Track I (P25-00194-ECPA)

Lead Agency: Napa County (Planning, Building and Environmental Services)

Lead Agency Contact: Dana Morrison, Supervising Planner, (707) 253-4437,
dana.morrison@countyofnapa.org

This Errata documents a minor revision to the draft Initial Study/Mitigated Negative Declaration (IS/MND) by the Lead Agency, Napa County. This update responds to a request from the Middletown Rancheria of Pomo Indians (the consulting tribe under Assembly Bill 52) ("Middletown Rancheria") to defer tribal mitigation monitoring roles to the Mishewal Wappo Tribe of Alexander Valley for this project moving forward.

The revision below follows the section and page sequence of the IS/MND, with new text enclosed in brackets.

Section 18 (Tribal Cultural Resources), subsection b, page 95:

Method of Monitoring: *The above measures shall be incorporated as Conditions of Approval of the project (if approved) and apply to associated building and grading permits. Prior to the commencement of vegetation removal and earthmoving activities pursuant to #P25-00194, the owner/permittee shall provide documentation to the Napa County Planning Division that they have established a monitoring agreement with the Middletown Rancheria [(or the Mishewal Wappo Tribe of Alexander Valley)] and have provided Project details to the Tribe including, but not limited to, the scope of work, dates and timelines of any Project activities, and that that cultural sensitivity training has been provided to site workers.*

Because this modification constitutes a minor addition that will not cause any new significant environmental effects, nor any new mitigation measures or substantial revisions, recirculation of the MND is not required pursuant to CEQA Guidelines Section 15073.5 (Recirculation of a Negative Declaration Prior to Adoption).
