Present Land Use/Zoning/General Plan Designation:

Commercial Mixed Use

Project Description: (please use a separate page if necessary)

The proposed Removal Action Work Plan (RAW) describes remediation of soil and soil vapor impacts involving volatile organic compounds (VOCs) at the Visalia Dry Cleaner Investigation Project. Contamination in the subsurface within the Project area by VOCs, primarily tetrachloroethene (PCE), is presumed to have resulted from spills and other handling processes from several former dry-cleaning facilities in the area including the former Lamoure's Cleaners, former Country Club Cleaners, former Miller's Cleaners, and former Village Cleaners, referred to as the "Project Site." The focus of this RAW is primarily on the former Lamoure's Cleaners and the former Country Club Cleaners. The remediation activities would consist of installing and operating a soil vapor extraction system at each of the former Lamoure's and Former Country Club Cleaners properties.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".

☐ Air Resources Board	☐ Office of Historic Preservation
☐ Boating & Waterways, Department of	☐ Office of Public School Construction
☐ California Emergency Management Agency	☐ Parks & Recreation, Department of
