

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: San Joaquin River Multi-Benefit Project

Lead Agency: Reclamation District No. 341

Contact Name: Martin Berber

Email: mberber@wbecorp.com

Phone Number: (916) 441-6850

Project Location: Sherman Island, Sacramento County

City

County

Project Description (Proposed actions, location, and/or consequences).

The San Joaquin River Multi-Benefit Project consists of rehabilitating the existing levee between Stations 330+00 and 368+00 on Sherman Island to meet the Delta-Specific PL 84-99 Standard. Prior to construction of the levee improvements, existing power poles and associated overhead utility lines within the project area will be relocated outside the project area. The project includes removing the existing Sacramento County road, placing compacted embankment to raise the levee crown and achieve the required freeboard above the 100-year flood elevation, constructing a landside levee toe berm to stabilize the levee slope, constructing a new County road, and establishing approximately 1 acre of hedgerow habitat consisting of riparian forest and scrub-shrub vegetation on the landside toe berm. Plantings will be monitored and maintained to ensure success criteria are met.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Based on the Initial Study, Reclamation District No. 341 has determined that the Project will not have any significant or potentially significant effects when mitigation measures are implemented. Proposed mitigation measures are included in the Initial Study/Mitigated Negative Declaration.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
