Project Title: Line H Crossing Improvements at Fremont Boulevard in Fremont, Alameda County, California, Zone No. 6 Project

Project Location - Specific: District Zone 6 Line H channel crossing at Fremont Boulevard

Project Location - City: Fremont **Project Location - County:** Alameda

Description of, Nature, and Purpose of Project: The Alameda County Flood Control and Water Conservation District (District) is proposing to improve the conveyance capacity on a segment of the District's Zone 6, Line H at the Fremont Boulevard crossing in the City of Fremont. Line H is an existing trapezoidal concrete lined channel and has a double 6' wide by 5.5' high box culvert under the Fremont Boulevard crossing. The proposed project involves installing an approximately 120-foot long, single 8' wide by 5' high reinforced concrete box culvert adjacent to the existing double box culvert. The proposed project would include modifying the existing reinforced concrete wing walls; constructing reinforced concrete headwalls and apron slab; modifying and conforming the transition from the culvert box to the concrete channel; placing and compacting Class 2 aggregate base; and furnishing and placing controlled density fill. Estimated depth of excavation is within 4 to 5 feet below the channel bottom. Excavated backfill will be reused if suitable. Work would also include reconstructing concrete driveways, sidewalk, curb and gutter, and the median island; and removing and replacing existing asphalt concrete and chain-link fences and gates. Utilities will be protected and/or relocated as needed. Erosion control measures, a water pollution control plan, best management practices, traffic control, and trench and excavation shoring protection will be prepared and implemented. The purpose of this project is to increase conveyance capacity within the existing culvert to meet the 100-year design flow.

Name of Public Agency Approving Project: Alameda County Flood Control and Water Conservation District

Name of Person or Agency Carrying Out Project: Alameda County Flood Control and Water Conservation District

EXEMPT STATUS (check one):

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
☐ Declared Emergency (Sec. 21080 (b)(3); 15269 (a));
☐ Emergency Project (Sec. 21080 (b)(4); 15269(b)(c));
☒ Categorical Exemption Sec. 15301, Class 1: Existing Facilities; Sec.15303, Class 3: New Construction or Conversion of Small Structures
☐ Statutory Exemption (state section number).

Reasons Why Project Is Exempt: The proposed project involves the minor alteration to existing structures and facilities involving negligible expansion of use beyond that existing at the time of the lead agency's determination; construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure.
