Project Description (Proposed actions, location, and/or consequences).

The California Fish and Game Commission proposes to amend sport fishing regulations as set forth in the California Code of Regulations, Title 14, sections 1.62, 1.73, 1.74, 2.10, 2.11, 4.20, 5.00, 5.65, 5.85, 5.88, 6.34, 6.35, 7.00, 7.40, 7.50, 8.00, 8.10, 28.25, 28.30, 28.32, 28.35, 230 and 701. The proposed amendments are needed to effectively manage California's sport fisheries by clarifying sport fishing regulations, increasing angler opportunities, and protecting fish populations.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The initial study and the Commission's review of the project showed that the project will not have any significant or potentially significant effects on the environment and, therefore, no alternatives or mitigation measures are proposed to avoid or reduce any significant effects on the environment.

The project will not have a significant effect on aesthetics, agriculture and forestry resources, air quality, biological resources, cultural resources, energy, geology and soils, greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use and planning, mineral resources, noise, population and housing, public services, recreation, transportation, tribal cultural resources, utilities and service systems, and wildfire.

Therefore, a negative declaration is filed pursuant to the California Environmental Quality Act (CEQA), Public Resources Code Section 21080, subdivision (c).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
