Present Land Use/Zoning/General Plan Designation:

Upland Residential (UR)/Remote Residential (RMR)

Project Description: *(please use a separate page if necessary)*

County of Mendocino Department of Transportation (County) proposes implementing the Outlet Creek at Reynolds Highway Bridge (10C0174) Replacement Project (project). The existing single-lane bridge was constructed in 1955 and is considered scour critical and fracture critical. The County proposes to replace the existing bridge with a new two-lane bridge and traffic rated vehicular barriers to meet American Association of State Highway and Transportation Officials standards. The new roadway profile would match the existing profile. The bridge would be placed on a new, slightly modified alignment upstream of the existing bridge. The project area encompasses approximately 3.45 acres.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".
