Re: SCH 2026070665 – NEG – El Dorado Hills Incorporation Project

The EDHCSD requests that the Clearinghouse replace the published CEQA Initial Study file for SCH 2026070665 with the updated version that is attached to the email.

Subsequent to the June 8, 2026 public review draft of the Initial Study/Negative Declaration, a minor textual clarification was made to the Tribal Cultural Resources discussion (Native American Consultation subsection, p. 63). This language has been revised to state that the tribe "is aware of" recorded tribal cultural resources within the area, removing the specific numeric reference to protect the confidentiality of tribal cultural resource information, consistent with Public Resources Code section 21082.3(c). This revision does not alter the analysis, conclusions, or significance findings of the Initial Study, nor does it affect the tribal consultation record, which remains as documented — UAIC concurred with the tribal cultural resources section and closed consultation on April 27, 2026. No other substantive changes were made.

Sincerely,

Stephanie McGann Jantzen

General Manager

El Dorado Hills Community Services District
