

NOTICE OF EXEMPTION

March 25, 2026

Project Name: Approval of Notice Exercising the Option to Extend District Attorney (DA) Lease Agreement between County of Riverside and Valley View Commerce Center, LLC, 30045 Technology Drive, Murrieta,

Project Number: FM042464000700

Project Location: 30045 Technology Drive, east of Sky Canyon Drive Murrieta, California, 92563, Assessor's Parcel Number (APN): 957-330-014

Description of Project: On June 28, 2005 (M.O. 3.16), the County of Riverside (County) entered into a Lease Agreement on behalf of the DA for the facility located at 30045 Technology Drive, Murrieta. This facility continues to meet the needs of the DA and this Option to Extend represents a two-year extension commencing January 1, 2027. The Option to Extend the Lease Agreement for the continued lease of 14,482 square feet of office space for the DA is identified as the proposed project under the California Environmental Quality Act (CEQA). The site will result in the continued use of an existing facility. The Project will not result in a substantial increase in capacity or the intensity of the use. No additional direct or indirect physical environmental impacts are anticipated.

Name of Public Agency Approving Project: Riverside County

Name of Person or Agency Carrying Out Project: Riverside County Facilities Management

Exempt Status: State CEQA Guidelines Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b) (3), "Common Sense" Exemption. Codified under California Code of Regulations Title 14, Article 5, Section 15061.

Reasons Why Project is Exempt: The proposed project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The project will not cause an impact to an environmental resource of hazardous or critical concern nor would the project involve unusual circumstances that could potentially have a significant effect on the environment. The project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the Option to Extend the Lease Agreement, permitting continued use of an existing facility.

- **Section 15301 – Class 1 Existing Facilities Exemption:** This categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site's use. The project, as proposed, is limited to the continued use of the existing facility. The project would not substantially increase or expand the use of the sites; and is limited to the continued use of the site in a similar capacity; therefore, the project is exempt as the project meets the scope and intent of the Class 1 Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.
- **Section 15061 (b) (3) – “Common Sense” Exemption:** In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the project may have a significant effect on the environment. The Option to Extend the Lease at an existing facility will not expand or increase the capacity or intensity of use of the site. The use and operation of the facility will be substantially similar to the existing use and will not create any new environmental impacts to the surrounding area. No impacts beyond the ongoing, existing use of the sites would occur. Therefore, in no way, would the project as proposed, have the potential to cause a significant environmental impact and the project is exempt from further CEQA analysis.

Therefore, the County of Riverside Facilities Management hereby concludes that no physical environmental impacts are anticipated to occur and the project as proposed is exempt under CEQA. No further environmental analysis is warranted.
