Project Title: Drone Show Event on August 19, 2026, on behalf of the USS Midway at South Tuna Harbor breakwater Pier **Project Applicant:** Ron Lee, CEO, Tactical Drone Solutions, 5392 Old Dairy Court, Bonita, CA 91902; 619-247-4525

Project Location – Specific: South Tuna Harbor breakwater Pier, San Diego, CA 92101

Project location – City: San Diego

Project Location – County: San Diego

Description of Nature, Purpose, and Beneficiaries of Project: The proposed project is for an approximately 10-minute drone show on August 19, 2026, on behalf of the USS Midway at South Tuna Harbor breakwater Pier (Pier) in San Diego, California. The drones would be deployed from and recovered in a cordoned area at the west end of the Pier and displayed west of the launch site directly over the water (Attachment A). The proposed event would have a duration of one (1) day, including set-up at approximately noon and clean-up in the evening.

A temporary safety perimeter would be established at the west end of the Pier using stanchions, caution tape and enforced by staff. Public access to the western half of the Pier would be restricted for approximately 2 hours before the drone show to allow for drone setup, while the remainder of the pier would remain open until approximately 30 minutes before and during the drone show. Access to the entire pier would be temporarily restricted during the drone show and would be restored once the drones are secured. No other closures of the walkways or road are anticipated to occur. The proposed event would be publicly viewable at no cost from various areas throughout the Embarcadero.

Staging for the proposed event would be within the safety perimeter and consist of approximately 300 drones. Additionally, event staff would ensure a safety zone within the flight area, including the area of water over which the show would be performed. A dedicated safety boat would be on site to maintain a safety perimeter on the water during the show. In the unlikely event a drone descends into the water, the safety boat would collect the drone immediately. The drone show operation would have staff assigned as visual observers. Visual observers are responsible for scanning and monitoring for any and all airborne activity, such as aircraft, failed drones, and activity involving wildlife, and reporting any relevant observations to the District. Additionally, the Applicant is required to comply with FAA regulations and obtain any applicable approvals.

Name of Public Agency Approving Project: San Diego Unified Port District (SDUPD)

Exempt Status: (Check one):
☐ Ministerial (Sec. 21080(b)(1); 15268);
☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
☒ **Categorical Exemption: Minor Alterations to Land (SG § 15304) (Class 4)**
☐ Statutory Exemption. State code number:

Reason Why Project is Exempt: The proposed project is determined to be Categorically Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15304 (Minor Alterations to Land) and Section

3.d. of the District's Guidelines for Compliance with CEQA because it is for a temporary event that would result in no permanent effects on the environment, and would not involve the removal of mature, scenic trees. Section 3.d. of the District's CEQA Guidelines is as follows:

3.d. Minor Alterations to Land (SG § 15304) (Class 4): Includes minor alterations in the condition of land, water and/or vegetation not involving the removal of mature, scenic trees, including, but not limited to:

(6) Minor temporary use of land having negligible or no permanent effects on the environment.
