Project Description: (please use a separate page if necessary)

This project proposes a coordinated program of invasive species removal and fire fuel reduction across multiple county parklands to enhance ecosystem resilience and mitigate climate-driven impacts including extreme heat, prolonged drought, flooding, and catastrophic wildfire. Activities will restore native plant communities and improve forest and meadow health, and reduce hazardous fuel loads across approximately 330 acres and 5 miles of trail corridors. The project is proposed for funding under a Proposition 4 grant application.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".

☐ Air Resources Board	☐ Office of Historic Preservation
☐ Boating & Waterways, Department of	☐ Office of Public School Construction
