Project Title: Emerson Street Paving Rehabilitation Project

Project Applicant: City of Clearlake, CA

Project Location - Specific:

Emerson Street - Between the intersections of Olympic Drive and Turner Avenue

Project Location - City: Clearlake, CA

Project Location - County: Lake County

Description of Nature, Purpose and Beneficiaries of Project:

See Attached Project Description Exhibit A

Name of Public Agency Approving Project: City of Clearlake, CA

Name of Person or Agency Carrying Out Project: TBD

Exempt Status: **(check one):**

☐ Ministerial (Sec. 21080(b)(1); 15268);

☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));

☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

☒ Categorical Exemption. State type and section number: Class 1 - Section 15301 (c) - Existing Facilities

☐ Statutory Exemptions. State code number: _____

Reasons why project is exempt:

The project qualifies for the above Categorical Exemption as the project is rehabilitating and/or improving an existing roadway for the purpose of public safety. The project is limited to the repair, rehabilitation, and maintenance of an existing public roadway. The proposed improvements will restore the roadway's structural integrity, safety, and serviceability without increasing roadway capacity, expanding the existing footprint, or changing its intended use.

Date Received for filing at OPR: _____

Project Description

Exhibit A

The proposed project consists of rehabilitating and repaving the existing roadway along Emerson Street between the intersections of Olympic Drive and Turner Avenue. All work will occur within the existing improved roadway.

Roadway rehabilitation will be completed using Full Depth Reclamation (FDR), an in-place pavement recycling method. The existing asphalt pavement material will be reclaimed to a depth of up to 8 inches using a pavement reclaimer. The reclaimed material will be mixed to create a stabilized base, compacted, and resurfaced. Because FDR reuses the existing pavement and base materials in place, no roadway materials will be imported to or exported from the project site.

The project is limited to the repair, rehabilitation, and maintenance of an existing public roadway. The proposed improvements will restore the roadway's structural integrity, safety, and serviceability without increasing roadway capacity, expanding the existing footprint, or changing its intended use
