

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Meadow Pointe Water System/Upper Lake County Water District Consolidation

Lead Agency: Upper Lake County Water District

Contact Name: Rachelle Henry

Email: ulcwd@yahoo.com

Phone Number: (707) 275-3232

Project Location: Unincorporated Upper Lake, Lake County

City

County

Project Description (Proposed actions, location, and/or consequences).

The project would consolidate the existing Meadow Pointe Water System into the Upper Lake County Water District. Meadow Pointe's water source is contaminated with MTBE and has been ordered by the State Water Resources Control Board Division of Drinking Water to find a new water source. Improvements to the Upper Lake water system would be made to provide service to Meadow Pointe via a master meter. The Meadow Pointe distribution system would be replaced. Additionally, residents along Bridge Arbor North Road would be provided with water service as their wells are similarly contaminated. The project would include LAFCO action to bring new water service areas into the Upper Lake water service area and sphere of influence.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Construction-related dust; dust control mitigation
 Potential construction-related impacts to foothill yellow-legged frogs, nesting birds, riparian habitat: preconstruction surveys and avoidance measure mitigation
 Accidental discovery of cultural resources; standard discovery mitigation
 Potential soil erosion; erosion control plan
 Potential discovery of contaminated soils/hazardous materials; development of response plan
 Construction-related noise; restriction on hours, equipment
 Construction-related traffic disruptions; development of a traffic control plan
 Potential impacts to Tribal Cultural Resources; Tribal Monitoring Agreement, training and Treatment Plan, per consultation.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None known.

Provide a list of the responsible or trustee agencies for the project.
