Bakersfield, CA 93301-4639

Project Title: New Well #8 and Pipeline Replacement Project

SCH Number: To be assigned

Project Location: The Frazier Park Public Utilities District (FPPUD) is located in the southern San Joaquin Valley, just west of Interstate-5 and north of the Los Angeles and Kern Counties' boundary within Kern County. The proposed Project consists of installation of a new well, west of the intersection of Mt. Pinos Way and Frazier Mountain Park Road and immediately south of Frazier Mountain Park Road. This proposed Project also includes replacement of about 18,300 lineal feet of existing potable water distribution lines. The project area occupies a portion of Section 36, Township 9 North, Range 20 West, San Bernardino Base and Meridian. The Longitude/Latitude at the center of the District is 118°N 56'58"/34°W 49'20".

Project Description: The Frazier Park Public Utilities District (FPPUD or District) is proposing to implement two water infrastructure Projects in the near future for which the District is seeking funding from the State Water Resources Control Board's Division of Drinking Water (DDW). The first Project is a new potable water well, proposed District Well #8. The second Project is the replacement of approximately 18,300 feet of District potable water distribution pipelines in three of the District's service areas, Summit Area, Lower Summit Area, and Texas Trail.

Project Sponsor(s): Frazier Park Public Utilities District

This is to advise that the Frazier Park Public Utilities District, acting as the lead agency, has prepared an Initial Study to determine if the project may have a significant effect on the environment and is proposing to adopt a Mitigated Negative Declaration based on the following finding:

- ☒ The Initial Study shows that there is no substantial evidence that the project may have a significant effect on the environment.
- ☒ The Initial Study identified potentially significant effects but:
 - (1) Revisions in the project plans or proposal made or agreed to by the agency before this proposed Negative Declaration was released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur; and,
 - (2) There is no substantial evidence before the agency that the project as revised may have a significant effect on the environment.

A copy of the Initial Study and all other material which constitutes the record of proceedings upon which the Frazier Park Public Utilities District based its decision to adopt this Mitigated Negative Declaration may be obtained at the District's website¹. The CEQA-required public review period of the Initial Study/Mitigated Negative Declaration begins July 31, 2026 and ends on August 31, 2026 (30 days). Written comments on the Initial Study should be submitted to Mr. Jonnie Allison at the mailing address listed below no later than August 31, 2026 by 5:00 PM.
