General Rule Exemption

Project Title and No.: Madden Grading Permit – GRAD2023-00064

Project Location and APN:

120 W 19th St Paso Robles, CA 93446

APN: 018-141-032

Project Applicant/Phone No./Email:

Micheal Madden / 805-674-7858 / ncdiesel@tcsn.net

Applicant Address (Street, City, State, Zip):

120 W 19th St Paso Robles, CA 93446

Description of Nature, Purpose, and Beneficiaries of Project:

Request for a Major Grading Permit by Michael Madden (RBLD2023-00147) to authorize the construction of a Metal barn and an electrical utility trench. The proposed project would disturb approximately 0.31 acres of the 20.71-acre parcel and involve approximately 1,695 cubic yards of cut and fill. The project site is designated Residential Rural and Residential Suburban and is located at 120 West 19th Street within the North County Planning Area.

Name of Public Agency Approving Project: County of San Luis Obispo

Exempt Status/Findings: This project is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be seen with certainty that there is no possibility that this project may have a significant effect on the environment; therefore, the activity is not subject to CEQA. [Reference: State CEQA Guidelines sec. 15061(b)(3), General Rule Exemption].

Reasons why project is exempt: The project includes grading for the construction of a 3,500-square-foot metal barn within the Residential Rural and Residential Suburban land use categories. The project site has access to an existing roadway network that is adequate to serve the proposed development. The applicant has designed the grading and site improvements to minimize site disturbance, resulting in a relatively small disturbance area of approximately 0.31 acres.

The project site is located within the North County Salinas River Sub Planning Area and is subject to the applicable provisions of the County Code. As proposed, the project complies with all applicable General Plan, Area Plan, and County Code development standards. In addition, the proposed barn would be constructed in an area that is not designated as Prime Farmland and would not result in the conversion of Prime Farmland to a non-agricultural use.

The project will not result in impacts to special status plant and animal species known to exist within the project area. Therefore, the project will maintain compliance with local policies and ordinances protecting biological resources.

The project is not located near a stream or in an area with known archaeological resources; therefore, impacts to cultural resources are not anticipated. In the unlikely event resources are uncovered during grading activities, implementation of County Code Section 22.10.040 (Archaeological Resources) would be required, which states:

A. Construction activities shall cease, and the Department shall be notified so that the extent and location of discovered materials may be recorded by a qualified archaeologist, and disposition of artifacts may be accomplished in accordance with state and federal law.

B. In the event archeological resources are found to include human remains, or in any other case when human remains are discovered during construction, the County Coroner shall be notified in addition to the Department so proper disposition may be accomplished.

The project area will not be impacted by geologic conditions, and all geotechnical recommendations have been incorporated into the project design, if applicable. Existing grading and drainage regulations will adequately address surface water quality impacts during construction and permanent use of the residence. The project will conform to the applicable General Plan and Area Plan standards, and no measures beyond those required by County Code are necessary to address the environmental impacts associated with the proposed project.

Additional Information: Additional information pertaining to this notice of general rule exemption may be found on the next page of this document and by contacting the Planning and Building Department, 976 Osos St., Rm 200, San Luis Obispo, CA 93408 (805) 781-5600.

| ☐ Board of Supervisors | ☐ Subdivision Review Board | ☒ Chief Building Official |
| ☐ Planning Commission | ☐ Planning Dept Hearing Officer | ☐ Other _____ |

Notice of General Rule Exemption

Project Title and No.: Madden Grading Permit – GRAD2023-00064

Pursuant to section 15061 of the State California Environmental Quality Act (CEQA) Guidelines, the preliminary review of a project includes a determination as to whether a project is exempt from CEQA. This checklist represents a summary of this project's review for exemption.

	<u>YES</u>	<u>NO</u>
1. Does this project fall within any exempt class as listed in sections 15301 through 15333 of the State CEQA Guidelines?	☐	☒
2. Is there a reasonable possibility that the project could have a significant effect on the environment due to unusual circumstances?	☐	☒
3. Is the project inconsistent with any Federal, State, or local law or administrative requirement relating to the environment?	☐	☒
4. Will the project involve substantial public controversy regarding environmental issues?	☐	☒
5. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	☐	☒
6. Does the project have the potential to achieve short-term environmental goals to the disadvantage of achieving long-term environmental goals? (A short-term impact on the environment is one which occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future.)	☐	☒
7. Does the project have adverse impacts which are individually insignificant, but cumulatively significant? Cumulatively significant means that the incremental effects of an individual project are substantially adverse when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.	☐	☒
8. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	☐	☒

On the basis of this initial evaluation, I find that the proposed project does not have the potential to cause a significant effect on the environment and is therefore exempt from CEQA.
