

Notice of Intent to Adopt a Mitigated Negative Declaration For the De Anza College 2021-2026 Facilities Master Plan and Measure G Master Projects List Project

In accordance with the California Environmental Quality Act, the Foothill–De Anza Community College District (FHDA) has conducted an Initial Study for the De Anza College 2021-2026 Facilities Master Plan and Measure G Master Projects List project and finds that the project will not have a significant adverse effect on the environment with implementation of mitigation measures. Therefore, FHDA provides this Notice of Intent to Adopt a Mitigated Negative Declaration (MND) for the proposed project. The analysis in the Initial Study tiers from the analysis presented in the De Anza College 1999 Facilities Master Plan EIR, which FHDA certified in 2002.

Project Description: The 2021-2026 Facilities Master Plan and Master Projects List serve as a guide for ongoing development and renovation of the 112-acre campus. It includes construction of a new Creative Arts Building, either construction of a new Services for Students Building or renovations to existing spaces, various demolitions, renovations and replacements of multiple facilities, enhanced technology upgrades, updated utility infrastructure, and improved multi-modal circulation in and around campus. The maximum proposed demolition is approximately 86,000 square feet and the proposed maximum new construction is approximately 50,000 square feet.

Project Location: De Anza College, 21250 Stevens Creek Boulevard, Cupertino (Santa Clara County)

Comments on the Initial Study and Proposed Mitigated Negative Declaration: FHDA requests your written comments on the Initial Study and Proposed MND during the public review period which begins on August 14, 2026, and ends on September 14, 2026. All comments must be received no later than 5:00 pm on September 14, 2026. Please direct your comments to Roseanne Sciacchitano, Director, Capital Construction Program, at sciacchitanoroseanne@fhda.edu or by mail at 12345 El Monte Road, Los Altos Hills, California 94022.

Availability of Documents: The Initial Study/MND and supporting documentation are available for public review on FHDA's website: https://facilities.fhda.edu/_tile-facilities-environmental-impact-report/deanza-college-eir/index.html
