Reasons why project is exempt:

Class 1 includes the repair, maintenance, or minor alteration of existing public facilities involving negligible or no expansion of use. The Project is consistent with a Class 1 exemption because work will consist of maintenance of and repairs to two existing bridges, the Barber Avenue Bridge and the Sir Francis Drake Boulevard Bridge. The repairs will include rehabilitation of the bridge decks, repairs of cracks and seals in existing bridge components, and concrete repairs. These improvements will not change the existing use of the sites or result in a substantial change in the physical character of the sites.
