ENVIRONMENTAL REVIEW PROCESS: In accordance with the California Environmental Quality Act (CEQA), the lead agency, the Amador County Planning Commission, intends to consider the adoption of a Mitigated Negative Declaration, as the project is consistent with the Amador County General Plan and zoning codes. The environmental assessment and application materials appear to be complete and indicate there are no extraordinary or unique environmental issues not normally mitigated for with the County's standard conditions which would be applied to this type of project and which are not otherwise addressed in the proposed mitigations for the project. If, during the processing of this application, it is determined that there are state or local issues which cannot be found to be insignificant or adequately mitigated through standard conditions, it may be found by the Planning Commission or Board of Supervisors that an Environmental Impact Report (EIR) shall be prepared. The Technical Advisory Committee (TAC) has reviewed this project and has found no technical objection to the approval of this project with the adoption of a Mitigated Negative Declaration. The required environmental review and comment period for this project will commence on August 19, 2026 and ends on September 8, 2026.
