Re: Tribal Consultation Under CEQA, 15 Argonaut Project, Orange County

To Whom It May Concern:

Pursuant to your request, attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Additionally, a search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed based on the information submitted for the above referenced project. The results were positive. Please contact the Juaneno Band of Mission Indians Acjachemen Nation – Belardes on the attached list for more information. Be aware that tribes do not always record their sacred sites in the SLF, nor are they required to do so. As such, an SLF search is not a substitute for consultation with all tribes that are traditionally and culturally affiliated with a project's geographic area. Please contact all of the listed tribes as they may have information about sacred sites within the project area that is not listed with the NAHC.

Additionally, the NAHC recommends that agencies include with their notification letters, information regarding any cultural resources assessment that has been completed on the Area of Potential Effect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

- A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
- Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
- Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
- If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

- Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.

3. The result of the Sacred Lands File check conducted through the Native American Heritage Commission.

(916) 373-3710
nahc@nahc.ca.gov

4. Any ethnographic studies conducted for any area including all or part of the APE; and

5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource, which is why consultation is vital.

This information will aid tribes in determining whether to request formal consultation. If consultation is requested, having the information beforehand will help to facilitate the process.

If you receive notification of a change of address or phone number from a tribe, please inform the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions or require additional information, please contact me at Andrew.Green@nahc.ca.gov.

Sincerely,

Andrew Green
Cultural Resources Analyst

Cahuilla Band of Indians
BobbyRay Esparza, Cultural Director
52701 CA Highway 371
Anza, CA, 92539

Subject: 15 Argonaut Project

Dear Mr. Esparza:

FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. The Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52, or Section 106 of the National Historic Preservation Act.

Designated lead agencies under the California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me via email at sgriffin@fcsintl.com. Thank you for your valuable assistance.

Subject: 15 Argonaut Project

Dear Chairperson Candelaria:

FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. The Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52, or Section 106 of the National Historic Preservation Act.

Designated lead agencies under the California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me via email at sgriffin@fcsintl.com. Thank you for your valuable assistance.

Subject: 15 Argonaut Project

Dear Mr. Dunlap:

FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. The Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52, or Section 106 of the National Historic Preservation Act.

Designated lead agencies under the California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me via email at sgriffin@fcsintl.com. Thank you for your valuable assistance.

FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. The Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52, or Section 106 of the National Historic Preservation Act.

Designated lead agencies under the California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me via email at sgriffin@fcsintl.com. Thank you for your valuable assistance.

Dear Ms. Minott:

FirstCarbon Solutions (FCS) is preparing an Initial Study/Mitigated Negative Declaration for the proposed 15 Argonaut Project in the city of Aliso Viejo, California. As part of the environmental review process, we are reaching out to the tribes for any additional information that can be incorporated into our analysis.

FCS understands that Brandywine Homes (applicant) is proposing the demolition of an approximately 47,096-square-foot existing office building on an approximately 4.4-acre site to facilitate the development of 58 three-story townhome units. The proposed townhomes would range from approximately 1,320 to 1,827 square feet in size and would consist of 3- and 4-bedroom units. The project site is located in the city of Aliso Viejo, Orange County, California. The project site is associated with Assessor's Parcel Numbers 623-093-10 and 623-093-11.

As part of the cultural resources assessment, FCS conducted a Sacred Lands File (SLF) search and a California Historical Resources Information System (CHRIS) search. The results of the SLF records search were positive. The CHRIS search found that there are seven pre-contact resources within the 0.5-mile search radius of the project site. Of these, one pre-contact resource was recorded within the project boundaries. Additionally, there are 24 studies within a 0.5-mile search radius of the project site, four of which address the project site. The Native American Heritage Commission (NAHC) suggested you might be able to provide further information. If you have any additional information regarding potential historic or cultural resources in proximity or relation to the proposed project area, we would greatly appreciate your input.

Please note that this letter is a request for information pertaining to a cultural resources assessment and is not notification of a project under Senate Bill (SB) 18, Assembly Bill (AB) 52, or Section 106 of the National Historic Preservation Act.

Designated lead agencies under the California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) are handling project notification and consultation requirements. Please feel free to contact me via email at sgriffin@fcsintl.com. Thank you for your valuable assistance.
