

Summary Form for Electronic Document Submittal**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Pleasant Grove Wastewater Treatment Plant Electrical Expansion Project

Lead Agency: City of Roseville

Contact Name: Jessica Lynch

Email: jlynych@roseville.ca.gov

Phone Number: (916) 774-5352

Project Location: City of Roseville

City

Placer

County

Project Description (Proposed actions, location, and/or consequences).

The City is proposing to consolidate and expand the Pleasant Grove Wastewater Treatment Plant (PGWWTP) electrical supply from Roseville Electric Utility and PGWWTP's emergency generators into a single expandable facility. The project would include construction of a multi-purpose, concrete masonry block switchgear and generator electrical building (Electrical Building No. 3), a 12-kilovolt (kV) utility feed, two new generators with diesel fuel storage, and a plant drain pump station for stormwater and facility drain collection. Two 2,500-kilowatt (kW) generators would be installed as part of the project with space reserved for two additional generators to be installed in the future as the PGWWTP expands. Similarly, the bulk diesel fuel storage includes a dedicated 15,000-gallon, double-walled steel storage tank for each generator with room to add two additional tanks as needed.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

-Western spadefoot - Mitigation Measure 3.4-1 (Implement West Roseville Specific Plan EIR Mitigation Measure 4.7-4 Relocate Individual Western Spadefoots and supplemental measures)
 -Crotch's bumble bee - Mitigation Measure 3.4-2 Conduct Focused Surveys for Crotch's Bumble Bee and Implement Avoidance Measures
 -Swainson's hawk, White-Tailed Kite, Loggerhead Shrike, Burrowing Owl, and Other Native Nesting Birds - Mitigation Measure 3.4-3: Conduct Focused Surveys for Special-Status Birds, Nesting Raptors, and Other Native Nesting Birds, and Implement Protective Buffers; Mitigation Measure 3.4-4: Conduct Take Avoidance Survey for Burrowing Owl, Implement Avoidance Measures, and Compensate for Loss of Occupied Burrows
 -Undiscovered archaeological resources - Mitigation Measure 3.5-1 Halt Ground Disturbance Upon Discovery of Subsurface Archaeological Features
 -Undiscovered Tribal Cultural Resource - Mitigation Measure 3.18-1: Unanticipated Discovery of Tribal Cultural Resources

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
