Facilities Management-PMO
3450 14th Street, Riverside, CA

FOR COUNTY CLERK USE ONLY

NOTICE OF EXEMPTION

July 2, 2026

Project Name: Ratification and Approval of Third Amendment to the Lease Agreement Sanderson Building, LLC, Department of Environmental Health (DEH), 800 South Sanderson Avenue, Hemet

Project Number: FM042310002900

Project Location: 800 South Sanderson Drive, north of West Johnston Avenue, Hemet, California 92545; Assessor's Parcel Number (APN) 456-060-005

Description of Project: The County of Riverside has leased the facility located at 800 S. Sanderson Avenue, Hemet, California (Lease) since August 2016. On August 30, 2022 (M.O. 3.20), the Board of Supervisors (Board) approved the First Amendment to Lease, extending the lease term and revising the rental provisions. On July 30, 2024 (M.O. 3.31), the Board approved the Second Amendment to Lease, which further extended the lease term, revised the rental rate provisions, added an early termination option, and updated the notice provisions.

The facility, occupied by the Department of Environmental Health (DEH), no longer fully meets the department's operational needs. As a result, DEH has initiated a competitive Request for Proposal (RFP) process to identify and procure a replacement facility that better aligns with the department's operational objectives. Accordingly, DEH desires to temporarily extend the Lease for an additional two-year term through a Third Amendment to Lease (Third Amendment) to ensure continuity of operations while the County completes the solicitation process and secures a suitable replacement location. The Third Amendment to the Lease Agreement is identified as the proposed Project under California Environmental Quality Act (CEQA). The leased premise consists of approximately 13,482 square feet and the proposed Project is the letting of property involving existing facilities; no expansion of an existing use will occur. The operation of the facility will continue to provide public services for the Probation Department and will not result in an increase in the intensity of the use of the site. No additional direct or indirect physical environmental impacts are anticipated.

Name of Public Agency Approving Project: Riverside County

Name of Person or Agency Carrying Out Project: Riverside County Facilities Management

Exempt Status: State CEQA Guidelines Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b) (3), General Rule or "Common Sense" Exemption. Codified under California Code of Regulations Title 14, Article 5, Section 15061.

Reasons Why Project is Exempt: The proposed project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The project will not cause an impact to an environmental resource of hazardous or critical concern nor would the project involve unusual circumstances that could potentially have a significant effect on the environment. The project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the Third Amendment to the Lease Agreement.

- **Section 15301 – Class 1 Existing Facilities Exemption:** This categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site's use. The project, as proposed, is limited to the extension of term of the existing Lease regarding environmental health services. The project would not substantially increase or expand the use of the site; use is limited to the continued use of the site in a similar capacity; therefore, the project is exempt as the project meets the scope and intent of the Class 1 Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.
- **Section 15061 (b) (3) – “Common Sense” Exemption:** In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the project may have a significant effect on the environment. The proposed Third Amendment to the Lease Agreement will not result in any direct or indirect physical environmental impacts. The use and operation of the facility will be substantially similar to the existing use and will not create any new environmental impacts to the surrounding area. No impacts beyond the ongoing, existing use of the site would occur. The effects of the relocation are not reasonably foreseeable at this time and will be addressed separately, once a location and design is identified. Therefore, in no way would the project as proposed have the potential to cause a significant environmental impact and the project is exempt from further CEQA analysis.

Therefore, the County of Riverside Facilities Management hereby concludes that no physical environmental impacts are anticipated to occur and the project as proposed is exempt under CEQA. No further environmental analysis is warranted.
