Project Title: North Tahoe Public Utility District Secline Beach Enhancement Project

Lead Agency: North Tahoe Public Utility District

Contact Name: Nathan Chorey, P.E.

Email: nchorey@ntpud.org

Phone Number: (530) 546-4212

Project Location: Kings Beach

Placer

City

County

The Project proposes a suite of amenities, access, and pedestrian/bike circulation improvements to Secline Beach, with a primary objective of retaining the existing character of the beach while providing enhanced facilities for beachgoers. Another objective is to establish permanent restroom facilities for beach users. All improvements have been designed with Griff Creek 100-year flood projections in consideration. Since the NTPUD does not currently own each of the three parcels within the Secline Beach project area, two Concepts have been developed for review: Concept A requires a land exchange with the California Tahoe Conservancy to enable construction of the restroom facility on NTPUD lands; Concept B places the restroom facility on land currently owned by the NTPUD.

Degradation of scenic vista of Lake Tahoe for Concept B Restroom - Mitigated with design elements and screening.
Modification of wildlife and plant habitat - Mitigated with pre-construction avian nest and Tahoe yellow cress surveys.
Potential modification of wetland habitat - Mitigated with Section 404/401 permit compliance.
Potential disturbance to recorded tribal cultural resources - Mitigated with Washoe Tribe consultation and avoidance.
Potential degradation of water quality - Mitigated with regulatory erosion control and SWPPP requirements.
Alter the course or flow of floodwater - Mitigated with design elements and compliance with regulatory requirements.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

NA

Provide a list of the responsible or trustee agencies for the project.

Responsible Agencies

California Tahoe Conservancy (Land Exchange Agreement)

California Regional Water Quality Control Board, Lahontan Region (NPDES Permit)
