## **Livermore Area Recreation and Park District Parks, Recreation and Trails Master Plan 2026**

The Livermore Area Parks and Recreation District (LAPRD) proposes to adopt a comprehensive update of the Parks, Recreation and Trails Master Plan (proposed Plan) to guide the development, enhancement, and management of parks, trails, recreation facilities, open space, and programs within LAPRD's jurisdiction over the next ten years. The proposed Plan establishes a framework for future decision-making through adopted policies, service standards, priorities, and implementation tools in order to address the growing and changing population and physical environment, existing infrastructure deficiencies and the associated demands for new and/or improved community recreation facilities and programs. The proposed Plan reflects community priorities, Board policy direction, system assessments, and planning analysis. Rather than serving as a fixed list of projects, the proposed Plan provides a flexible roadmap for maintaining existing assets, expanding recreation opportunities, improving connectivity, and supporting long-term stewardship of public resources.

The proposed Plan area is a 243.5 square mile area in the Livermore Valley including the City of Livermore and unincorporated areas of eastern Alameda County. The proposed Plan area is bound by Contra Costa County to the north, San Joaquin County to the east, Santa Clara County to the south, and the cities of Pleasanton and Dublin to the west.
