Notice of Intent To Adopt A Mitigated Negative Declaration

NOTICE is hereby given that the County of Sacramento, State of California intends to adopt a Mitigated Negative Declaration for the project described below.

Title: Aquifer Storage and Recovery Project Vineyard Surface Water Treatment Plant

Control Number: PLER2025-00142

Location: The Project is located at the cross streets of Florin Road, Knox Road, Excelsior Road in the Vineyard Community.

APN: 066-0060-001-0000

General Description: Sacramento County Water Agency (SCWA) proposes to convert an inactive supply well (PW-1) at the Vineyard Surface Water Treatment Plant into an Aquifer

Storage and Recovery (ASR) well and construct associated conveyance pipelines. The work includes installing a permanent 100-horsepower pump, electrical

controls, and 12-inch piping and valves connecting to the existing potable water system. SCWA also plans four future ASR wells, associated pipelines, and the

conversion of three active Excelsior supply wells to ASR. ASR implementation would involve removing the existing pump, performing pre- and

post-rehabilitation downhole video surveys, cleaning the well screen and filter pack to remove scaling, biomatter, and sediment, and reinstalling the pump with

an ASR valve. The existing above-ground pipeline would be reconfigured to include a backflushing loop.
