1.0 INTRODUCTION

This Phase I Environmental Site Assessment (ESA) is for the property located at 38455 E Benton Road, Hemet, CA. The approximate 9.85-acre property (also referred to as the Site or Subject Site) is within unincorporated Riverside County. The Subject Site is surrounded by large lot rural residential properties that are vacant to the west with agricultural use to the east, and rural residential uses to the north and south.

This ESA examines the existing environmental conditions upon, and in the vicinity of the subject property and identifies land uses that may pose a Recognized Environmental Condition (REC)[1] affecting the future use or continued use of the subject property. Refer to Figures 1 and 2 for a Regional Location map and Project Vicinity map, respectively.

The purpose of this Phase I ESA is to assess historical uses that may have affected the subject site specifically relating to the presence or likely presence of a REC such as hazardous materials or petroleum products. This report includes any observed potential impacts to the site that may have altered the site's ecology, environment, functional use, or economic value. Visual observations and inquiries into public records are documented; no documents related to the placement of water pipelines, gas mains or other infrastructure were reviewed. No structures or their content were evaluated as part of this ESA.

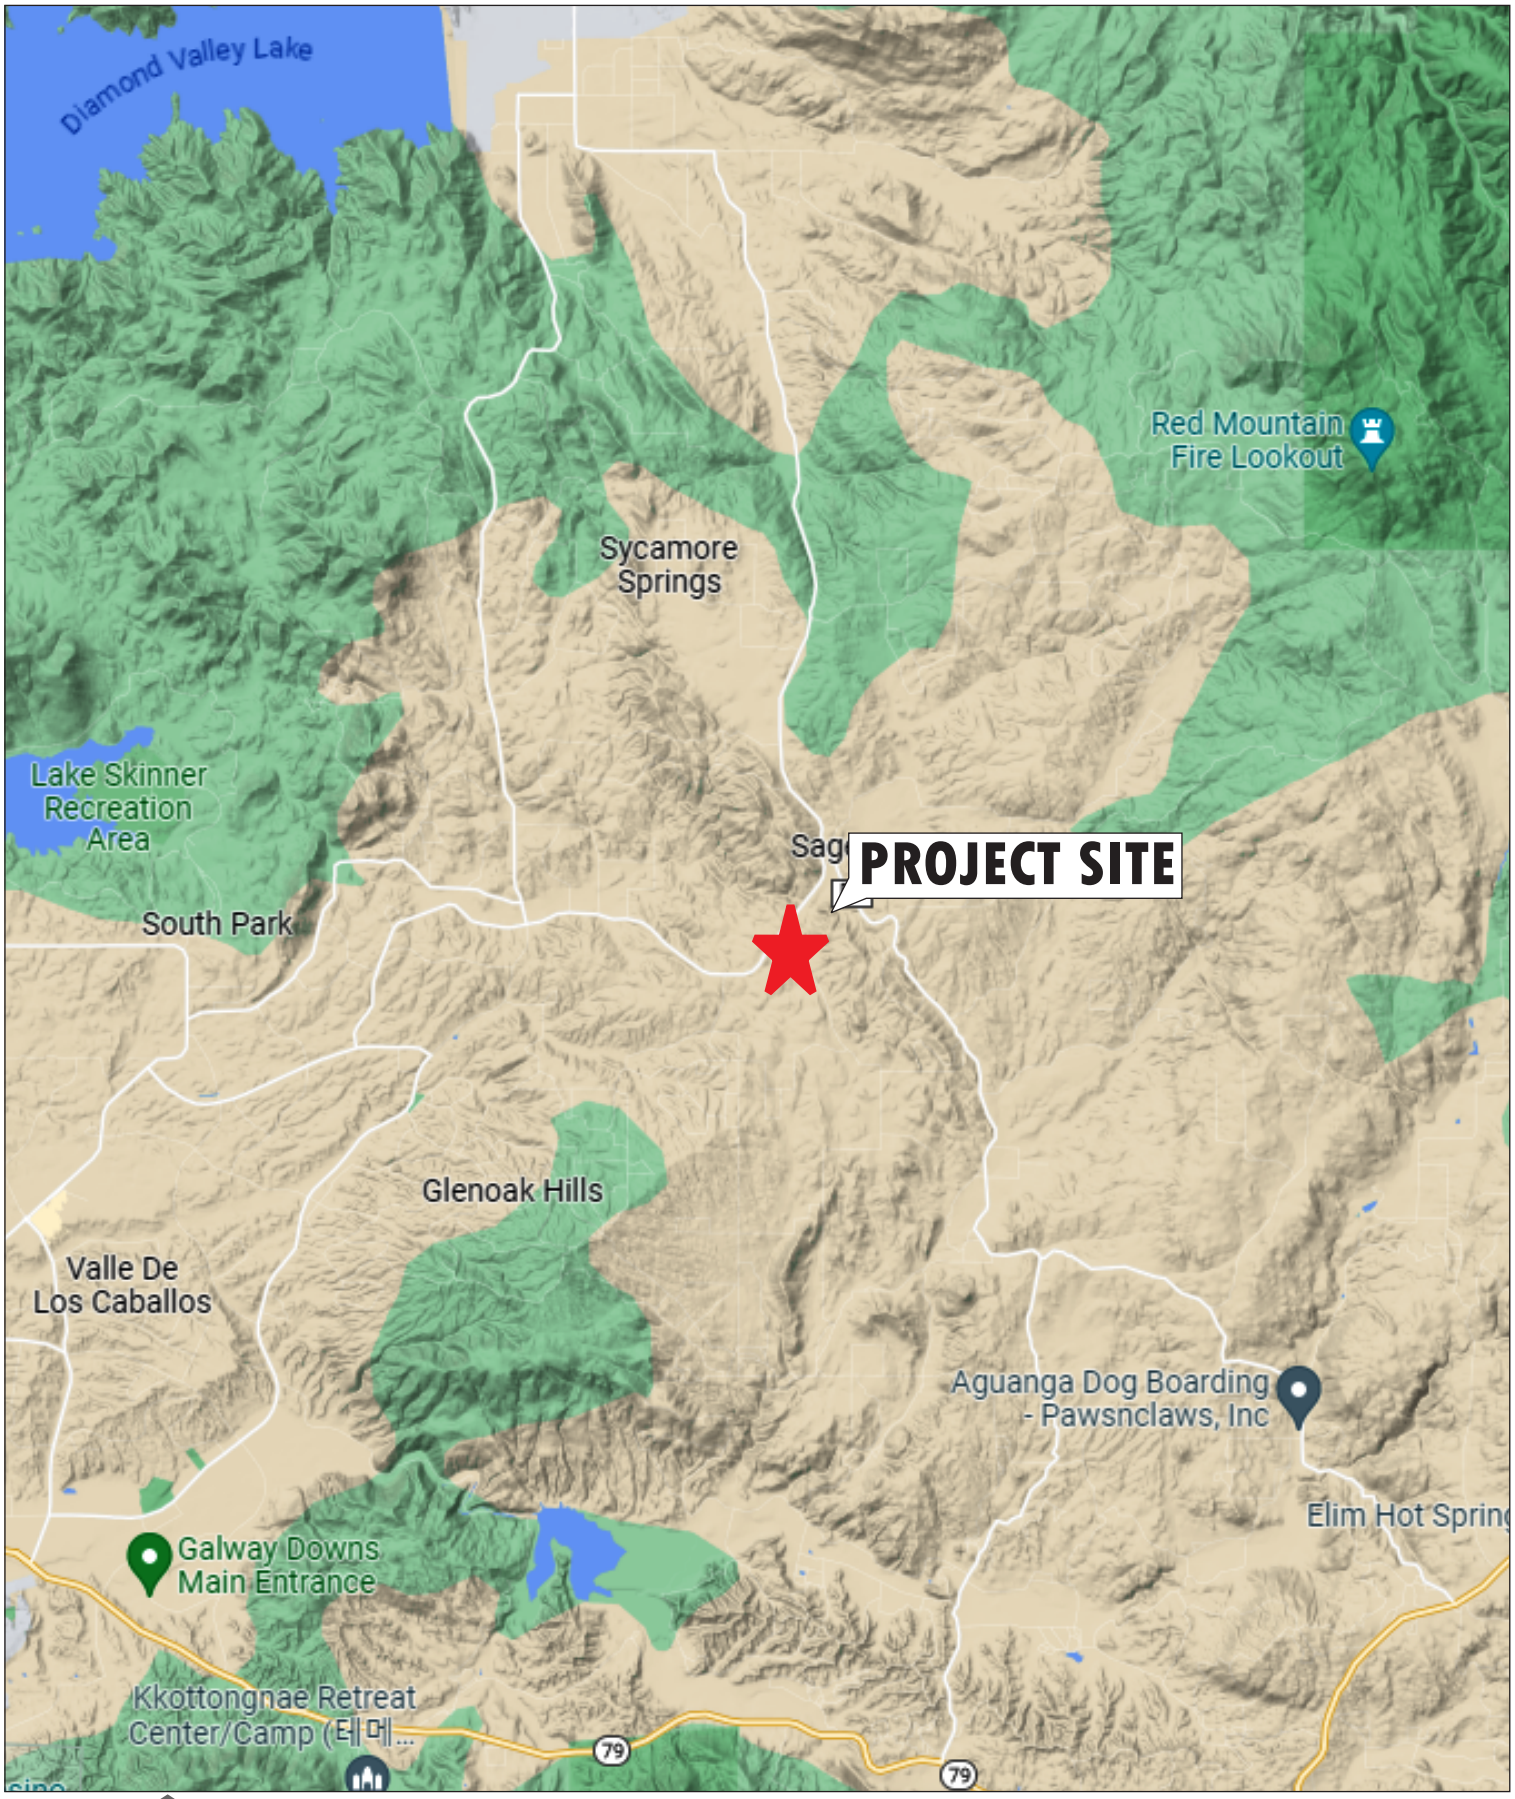

American Society for Testing and Materials (ASTM) Guidelines: This environmental assessment follows the guidelines established by the ASTM Standard Practice Manual for the Phase I Environmental Site Assessment process, ASTM Designation E 1527-21.

The objective of this ESA is to evaluate the subject site for current and historical sources of environmental concerns, evidence of hazardous substance disposal or releases form or onto the subject site, evidence of environmental threats from adjacent properties, and whether further environmental testing of the site is warranted. This report meets ASTM Standards for ESA's. To meet these objectives, Lilburn Corporation performed the following tasks:

- Reviewed available environmental reports.
- Reviewed historic land use records and files.
- Reviewed pertinent regulatory agency documents.
- Reviewed available current and historical aerial photographs of the site and adjacent properties.
- Performed a reconnaissance of adjacent and immediately surrounding properties.
- Performed an on-site reconnaissance of the property.
- Prepared this report.

The results of this ESA are presented in the following Sections, 2.0 – 7.0.

[1] American Society for Testing and Materials defines a Recognized Environmental Condition as "the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws.

FIGURE 2

2.0 SITE LOCATION

The subject site is being evaluated at the request of Sage Valley Reserve, LLC (formerly Sun Grown Farms, Inc.). The site is located south of the City of Hemet within unincorporated Riverside County, California. The property is located at 38455 E Benton Road, APN 915-330-040.

According to the Environmental Data Resources, Inc (EDR) report, the geographical location of the subject parcel is as follows:

Elevation:	2,282 ft. above sea level
Latitude:	33.5670970 - 33ˆ 34’ 1.54’’ North
Longitude:	116.9407190 - 116ˆ 56’ 26.58’’ West

The parcel boundaries are within the USGS Topographic Map: Sage Quadrangle California-Riverside Co. 7.5 Minute series, T7S R1W Section 13.

2.1 DESCRIPTION OF SURROUNDING AREA

The Subject Site is located on E Benton Road between Ruth Road to the south and San Ignacio Road to the north. The surrounding area mainly consists of large lot rural residential development as well as agricultural uses. Parcels immediately adjacent to the subject parcel include the parcel across Benton Road to the west, which is vacant land, rural residential properties to the north and south, and active agriculture to the east. Refer to Figure 2 for the Project Vicinity map.

2.2 REVIEW OF HISTORIC PHOTOGRAPHS

Aerial photographs reviewed that show the subject site and surrounding land uses include those taken for the following years:

Year	***Scale***	***Source***
1949	1” – 500’	USDA
1961	1” – 500’	USDA
1967	1” – 500’	USDA
1978	1” – 500’	USDA
1989	1” – 500’	USDA
1996	1” – 500’	USDA
2005	1” – 500’	USDA
2012	1” – 500’	USDA
2020	1” – 500’	USDA

Appendix A contains the aerial photographs reviewed. The subject site is marked in red on each photograph to show an approximate location. The following is a summary of the photograph observations of land use on-site and in the vicinity for the corresponding years when the photographs were taken.

- The 1949 aerial photograph shows the subject site as vacant. Benton Road located east of the subject site runs generally north and south in this area. From San Ignacio Road Benton Road continues southwest passing the subject site before curving to continue westerly. The surrounding land north, south, and east and west appear to be vacant. There appears to be a drainage course or riparian area running through the east edge of the site.

- The 1961 aerial photograph depicts no change to the subject site.

- The 1967 aerial photograph shows not much change to the subject site. There do appear to be a few more access roads in the immediate area. Portions of the Site and adjacent vicinity appear to have been cleared/disced or used for dry farming. The surrounding parcels and general area north, south, east and west show little change.

- The 1978 aerial photograph shows the site as vacant. The surrounding lands north, south, east and west show scattered development with likely residential structures and quite a few access roads not seen in earlier photos.

- The 1989 aerial photograph shows an increase in vegetation on the subject site. The surrounding lands north, south, east and west show an increase in residential uses as well as a large agricultural facility northwest of the subject site.

- The 1996 aerial photograph shows a structure on the subject parcel, likely residential. The curvature in Benton Road directly in front of the property seems to have been straightened out, forming a more direct roadway. The alignment of Benton Road at Ruth Road has also been redesigned to reflect a much smoother curve with a larger radius than what is depicted in previous views. The scarring of both previous curves in the road is evident in this photo.

- The 2005 aerial photograph shows an increase in vegetation on the subject site. The surrounding lands north, south, east and west show an increase in residential uses, especially to the southwest. The large facility to the northeast remains.

- The 2012 aerial photograph shows the same structure on the subject site. The surrounding lands north, south, east and west again show an increase in scattered residential uses to the south and southwest as well as to the east.

- The 2020 aerial photograph shows the subject site with what appears to be a residential structure as before. Additional residential uses occur southwest of the subject site. The agricultural facility to the northwest seems to have expanded in size and there is agricultural development beginning to appear adjacent and east of the subject property. To the northwest appears to be equestrian/ranch facility.

2.3 HISTORIC UNITED STATES GEOLOGICAL SURVEY (USGS) MAPS

Available historic and current USGS maps that include the subject site and surrounding area were reviewed for the years 1897 through 2018. The site's elevation is approximately 1,397 feet above sea level. The site and its general vicinity are prominently sloped from north to south.

Year	*Target Quad Name*	*Details*
2021	Sage	7.5-Minute Series
2018	Sage	7.5-Minute Series
2015	Sage	7.5-Minute Series
2012	Sage	7.5-Minute Series
1957	Hemet	15-Minute Series
1954	Sage	7.5-Minute Series
1947	Hemet	15-Minute Series
1942	Hemet	15-Minute Series
1901	San Jacinto	30-Minute Series

Appendix B contains copies of the historic topographic maps reviewed, and the approximate location of the subject site is marked in red on each map. The subject parcel is located on the Sage, CA USGS Quadrangle map. A summary of the review of the maps is presented below.

- The 1901 USGS map shows that the subject site is undeveloped. Roads occur surrounding the site on all sides for access to other properties as well as access to the Community of Sage. There also appears to be scattered structures within a mile or so of the subject parcel.

- The 1942 USGS map shows no significant change to the subject site and surrounding area. The roads surrounding the site are depicted as dashed lines and are therefore presumed to be unimproved. Only Benton Road and San Ignacio Road are shown with a solid line (improved).

- The 1947 USGS map shows that the subject site and surrounding area has not changed since the 1942 map.

- The 1954 USGS map shows no significant change to the subject site. Additional structures occur in the community of Sage to the northeast.

- The 1957 USGS map shows no significant change on the subject site. Additional structures and streets occur northeast and south of the subject site.

- The 2012 USGS map shows a more organized network of named streets surrounding the site.

- The 2015 - 2021 USGS maps show no significant changes to the subject site and surrounding area other than an expansion of the road network.

3.0 SITE VISIT

Summary: A site inspection was conducted on July 6, 2023, by Trisha Daluro and Giang Ngo, of Lilburn Corporation. The subject site at the time of the survey included a single-family residence. The entire site had sparse vegetation that was denser at the rear of the property within a drainage course that runs through the east end of the parcel. Refer to Appendix C for photographs taken during the site visit which depict the site and surrounding properties. No RECs were identified during the site visit.

3.1 PROPERTY EVALUATION

On-Site Observations

An on-site survey/property evaluation was conducted on July 6, 2023. The subject site was observed and accessed by foot via Benton Road. The site included a single-family residence with a septic system and water well. The purpose of the site reconnaissance was to observe the present site uses and conditions as they relate to the possible presence of potentially hazardous substances and petroleum products. In addition, adjoining properties and roads were visually observed from the subject site to identify land uses and the potential presence of structures, operations, activities, or environmental conditions that may involve the use, treatment, storage, disposal, or generation of hazardous wastes and/or petroleum products that may pose an environmental concern to the subject site. At the time of the survey, there was an existing single-family residence, a water tank, a few storage sheds and scattered debris onsite. There was an existing septic system and water well to serve the residence. Table 1 presents a summary of the site survey/property evaluation.

Table 1
Summary of Site Reconnaissance

Observed on-site?	Yes	No
Existing structures	●	
Power line towers		●
Evidence of past uses (foundations, roads)		●
Hazardous substances and/or petroleum products (including containers)		●
Aboveground storage tanks (ASTs) or evidence of ASTs		●
Underground storage tanks (USTs) or evidence of USTs		●
Strong, pungent, or noxious odors		●
Pools of liquid likely to be hazardous materials or petroleum products		●
55-gallon Drums		●
Unidentified substance containers		●
PCB-containing equipment		●
Subsurface hydraulic equipment		●
Pits, ponds, or lagoons		●
Stained soil and/or pavement		●

Observed on-site?	Yes	No
Stressed vegetation		●
Waste or wastewater discharges to surface or surface waters on subject site (including stormwater)		●
Wells (irrigation, domestic, dry, injection, abandoned, monitoring)	●	
Septic systems	●	

Upon reconnaissance of the subject site, no RECs were observed during the subject site visit. No RECs were observed upon observation of adjacent properties.

Surrounding Land Uses

A summary description of surrounding land uses follows:

North Land Uses
Residential /Agricultural use

South Land Uses
Residential use

East Land Uses
Agricultural Use and vacant

West Land Uses
Benton Road / Vacant

3.2 PROPERTY OWNER/AGENT INTERVIEWS

An interview on July 6, 2023 with the current owner (Glen Aery) of the subject site stated that the existing residence on the site was built in 1990. Mr. Aery has submitted an application to the County of Riverside to develop an agricultural use to be known as Sage Valley Reserve cannabis cultivation operation on 4.55 acres of the 9.85-acre parcel. Based on the property owner interview and data collected and reviewed by Lilburn Corporation as part of this Phase I ESA no issues or concerns relating to the current/historic use of the subject site were indicated. No uses of the site that would warrant additional inquiry have been identified.

4.0 GEOLOGY AND HYDROGEOLOGY

Summary: No geologic or hydrogeologic concerns were encountered during the site visit. According to the Environmental Data Resources, Inc. (EDR) report included as Appendix D, the project site is within the 100 yr. and 500 yr. flood zones.

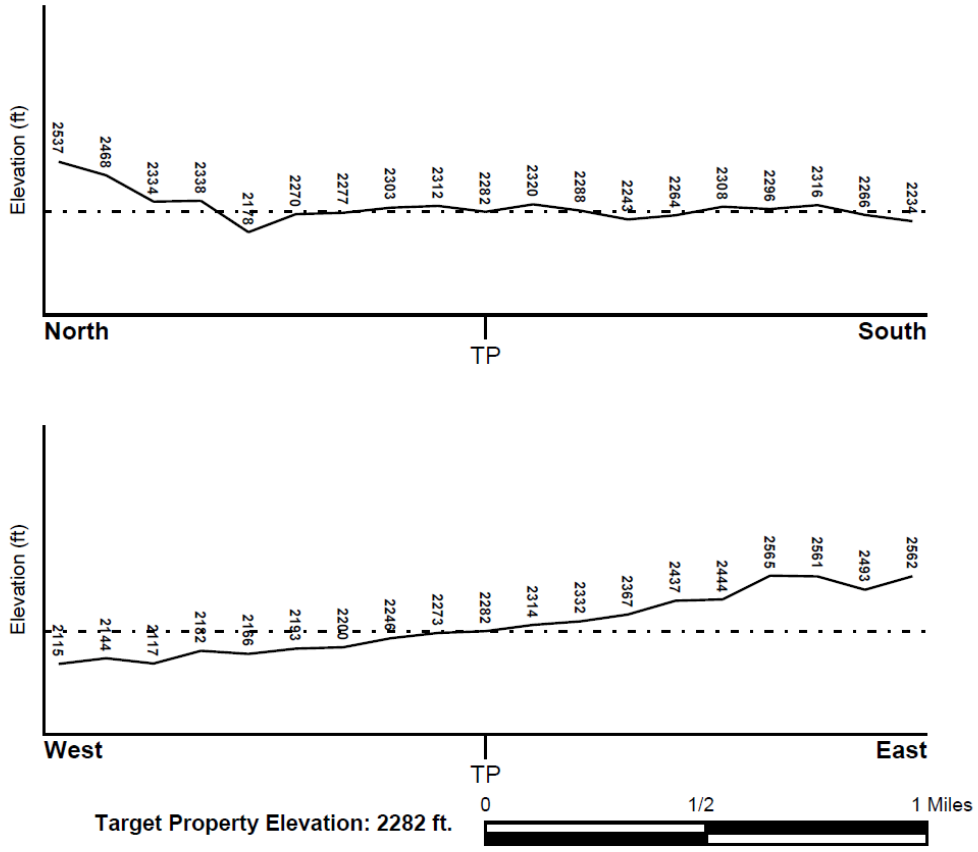

4.1 GEOLOGY

The subject site elevation ranges from 2,115 to 2,562 feet above mean sea level (amsl)[2]. The subject property slopes from north to south and east to west.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

[2] Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

Seismic Fault Systems

According to the Southern California Earthquake Data Center (https://scedc.caltech.edu) the closest fault zones to the subject parcel are:

- San Jacinto Fault - 13.5 miles to the east.
- Elsinore Fault Zone – 12.5 miles to the west

Earthquakes, due to their ground acceleration and shifting, can cause major damage to buildings and create dangerous hazards to people through injury or death. Development projects in the seismically active region must mitigate these potential hazards through strict adherence to the California Building Code (CBC) and implementation of recommendations from geotechnical engineers.

4.2 REGIONAL HYDROLOGY AND GROUNDWATER

FEMA Flood Zone Mapping

According to the EDR report included herein as Appendix D the project site data was obtained from the Federal Emergency Management Agency (FEMA) that depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Local / Regional Water Agency Records

EDR Local/Regional Water Agency records indicate a well within the subject property. Refer to Appendix D of the EDR Report for additional information on well locations.

National Wetlands Inventory

According to the EDR report included herein as Appendix D the project site is not located within the National Wetlands Inventory.

5.0 LOCAL AGENCY REVIEW

Summary: Local records were reviewed to determine if historical uses of the subject property or nearby uses could impact the continued use of the site. There were no indications of odor or soil contamination.

Various local agencies maintain databases or records which are useful for evaluating the history of a property, and which may provide indications pertaining to the past uses of the property and any potential environmental concerns. For the purposes of this ESA, records reviewed are presented below.

- Sanborn Fire Insurance Mapping
- Riverside County, Department of Environmental Health
- EDR Vapor Encroachment Screen
- Property Chain of Title Conveyance Documents-Riverside County Recorder's Office

Sanborn Fire Insurance Mapping

The Sanborn Maps were originally created for assessing fire insurance liability in urbanized areas in the United States. The certified Sanborn results provided by the EDR identify the subject site as occurring within unmapped property; therefore, Sanborn Maps are not available. Refer to Appendix E for more detail.

The Riverside County, Department of Environmental Health

The Riverside County Department of Environmental Health was sent a request for information and/or recorded history of hazardous materials related to the subject site on January 19, 2024. On January 24, 2024, a letter was received stating that no records had been found (Appendix F). No evidence of present contamination was observed during the site visit conducted on the property. Records maintained by DEH include:

- Facilities with hazardous waste generator permits, hazardous materials handler permits, underground storage tank permits, universal waste permits, tiered permits, EPCRA facilities, RMP facilities, Cal ARP facilities, and/or waste recycling generators, including inactive and/or out of business records, as well as non-permitted facility actions.
- Logs of permits issued for the removal, installation, and/or modification of underground storage tanks.
- Records and databases pertaining to illicit dumping, spill reports and release notifications, and complaints.
- Incidents responded to by the hazardous materials emergency response team.
- Sites undergoing remediation for contaminated soil and/or groundwater.

Area Radon Information

A review of records for Radon testing was performed as part of this ESA for the subject site's zip code (92544). The EDR revealed that twenty-two (22) tests for Radon have been performed in the area. All tests indicated Radon concentrations of less than 4 pCi/L (Picocuries Per Liter)[3]. Refer to Appendix D for additional information on Radon.

Property Chain of Title – Riverside County Recorder's Office

After a review of the property's Chain of Title over the past 35 years (County of Riverside Assessor Office) no environmental concerns are anticipated based on prior ownership. Refer to Table 2 for the deed chain of titles.

Table 2
Chain of Title

APN 914-330-040		
Owner(s)	**Document #**	**Date Acquired**
Glen Aery	2022-0124735	3/15/2022
Patricia Aery	2004-0550533	7/15/2004
Joe Pozzouli	2001-0444202	9/13/2001
John S. and Amy M. Thomas	1999-0223796	5/21/1999
Riverside County	1991-350333-S	10/09/1991
Agnes and John R. Turner	1989-0120199	4/17/1989

Source: Riverside County Assessor, January 15, 2024

[3] 4 pCi/L is the EPA lower action limit for habitable structures. Levels in excess of 4 pCi/L typically require remediation.

6.0 REGULATORY REVIEW

Summary: A review of Federal and State environmental databases revealed no environmental concerns or issues directly related to the site, which would be considered "an impairment" or REC. No mapped sites were found in EDR's search of available ("reasonably ascertainable") government records on the target property. It is unlikely that any surrounding properties have impacted the environmental integrity of the subject site. Refer to Appendix D for additional information.

The State of California and various federal government agencies investigate and/or track numerous environmental concerns on a regional basis. For the purposes of this ESA, the following agency records were reviewed for a one-mile radius of the subject property.

FEDERAL RECORDS

NPL: National Priority List
Source: EPA's Environmental Photographic Interpretation Center (EPIC)
Telephone: 202-564-7333
National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites
Source: EPA
Telephone: N/A
A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens
Source: EPA
Telephone: 202-564-4267
Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

DELISTED NPL: National Priority List Deletions
Source: EPA
Telephone: N/A
The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System
Source: EPA
Telephone: 703-603-8704
CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by States, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS includes sites that are either proposed for or on the National Priorities List (NPL), and sites that are in the screening and assessment phase for possible inclusion on the NPL.

CERCLIS - NFRAP: No Further Remedial Action Planned
Source: EPA
Telephone: 880-424-9346
SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

CORRACTS: Corrective Action Report
Source: EPA
Telephone: 800-424-9346
CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

RCRA: Resource Conservation and Recovery Act Information
Source: EPA
Telephone: 415-495-8895
RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on-sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kg of hazardous waste, or over 1kg of actual hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

LUCIS: Land Use Control Information System
Source: Department of the Navy
Telephone:843-820-7326
LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

US ENG CONTROLS: Engineering Controls Sites List
Source: Environmental Protection Agency
Telephone: 703-603-0695
A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or affect human health.

US INST CONTROL: Sites with Institutional Controls
Source: Environmental Protection Agency
Telephone: 703-603-0695
A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of institutional controls.

ERNS: Emergency Response Notification System
Source: NRC/US Coast Guard
Telephone: 202-267-2180
Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

ENVIROSTOR: EnviroStor Database
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

SFW/LF (SWIS): Solid Waste Information System
Source: Department of Resources Recycling and Recovery
Telephone: 916-341-6320
Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or inactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

LUST: Leaking Underground Fuel Tank Report (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 858-637-5595
Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

CPS-SLIC: Statewide SLIC Cases (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

State and tribal registered storage tank lists

FEMA UST: Underground Storage Tank Listing
Telephone: 202-646-5797
A listing of all FEMA owned underground storage tanks.

MILITARY UST SITES: Military UST Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Military UST sites.

UST: Active UST Facilities
Source: SWRCB
Telephone: 916-341-5851
Active UST facilities gathered from the local regulatory agencies.

UST CLOSURE: Proposed Closure of Underground Storage Tank (UST) Cases
Source: State Water Resources Control Board
Telephone: 916-327-7844
UST cases that are being considered for closure by either the State Water Resources Control Board or the Executive Director have been posted for a 60-day public comment period. UST Case Closures being proposed for consideration by the State Water Resources Control Board. These are primarily UST cases that meet closure criteria under the decisional framework in State Water Board Resolution No. 92-49 and other Board orders. UST Case Closures proposed for consideration by the Executive Director pursuant to State Water Board Resolution No. 2012 0061. These are cases that meet the criteria of the Low-Threat UST Case Closure Policy. UST Case Closure Review Denials and Approved Orders.

AST: Aboveground Petroleum Storage Tank Facilities
Source: California Environmental Protection Agency
Telephone: 916-327-5092
A listing of aboveground storage tank petroleum storage tank locations.

Indian UST R9: Underground Storage Tanks on Indian Land
Source: EPA Region 9
Telephone: 415-972-3368
The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 9 (Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations).

State and tribal voluntary cleanup sites

VCP: Voluntary Cleanup Program Properties
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have requested that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

BROWNFIELDS: Considered Brownfields Sites Listing
Source: State Water Resources Control Board
Telephone: 916-323-7905
A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.

ADDITIONAL ENVIRONMENTAL RECORDS

US BROWNFIELDS: A Listing of Brownfields Sites
Source: Environmental Protection Agency
Telephone: 202-566-2777
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

WMUDS/SWAT: Waste Management Unit Database
Source: State Water Resources Control Board
Telephone: 916-227-4448
Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA

Program Information, RCRA Program Information, Closure Information, and Interested Parties Information.

SWRCY: Recycler Database
Source: EPA
Telephone: 916-323-3836
A listing of recycling facilities in California

HAULERS: Registered Waste Tire Haulers Listing
Source: Integrated Waste Management Board
Telephone: 916-341-6422
FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

INDIAN ODI: Report on the Status of Open Dumps on Indian Lands. Location of open dumps on Indian land.
Source: EPA
Telephone: 703-308-8245

DEBRIS REGION 9: Torres Martinez Reservation Illegal Dump Site Locations
Source: EPA, Region 9
Telephone: 415-947-4219
A listing of illegal dump site locations on the Torres Martinez Indian Reservation located in eastern Riverside County and northern Imperial County, California.

ODI: Open Dump Inventory
Source: EPA
Telephone: 800-424-9346
An open dump is defined as a disposal facility that does not comply with one or more of the Part 257 or Part 258 Subtitle D Criteria.

IHS OPEN DUMPS: Open Dumps on Indian Land
Source: Department of Health & Human Services, Indian Health Service
Telephone: 301-443-1452
A listing of all open dumps located on Indian Land in the United States.

US HIST CDL: National Clandestine Laboratory Register
Source: Drug Enforcement Administration
Telephone: 202-307-1000
A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

HIST CAL-SITES: Calsites Database
Source: Department of Toxic Substance Control
Telephone: 916-323-3400
The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

SCH: School Property Evaluation Program
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose.

CDL: Clandestine Drug Labs
Source: Department of Toxic Substances Control
Telephone: 916-255-6504
A listing of drug lab locations. Listing a location in this database does not indicate that any illegal drug lab materials were or were not present there and does not constitute a determination that the location either requires or does not require additional cleanup work.

TOXIC PITS: Toxic Pits Cleanup Act Sites
Source: State Water Resources Control Board
Telephone: 916-227-4364
Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

CERS HAZ WASTE: CERS HAZ WASTE
Source: CalEPA
Telephone: 916-323-2514
List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

US CDL: Clandestine Drug Labs
Source: Drug Enforcement Administration
Telephone: 202-307-1000
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

PFAS: PFAS Contamination Site Location Listing
Source: State Water Resources Control Board
Telephone: 866-480-1028
A listing of PFAS contaminated sites included in the GeoTracker database.

PFAS NPL: Superfund Sites with PFAS Detections Information
Source: Environmental Protection Agency
Telephone: 703-603-8895
EPA's Office of Land and Emergency Management and EPA Regional Offices maintain data describing what is known about site investigations, contamination, and remedial actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) where PFAS is present in the environment.

PFAS FEDERAL SITES: Federal Sites PFAS Information
Source: Environmental Protection Agency
Telephone: 202-272-0167
Several federal entities, such as the federal Superfund program, Department of Defense, National Aeronautics and Space Administration, Department of Transportation, and Department of Energy provided information for sites with known or suspected detections at federal facilities.

PFAS TSCA: PFAS Manufacture and Imports Information
Source: Environmental Protection Agency
Telephone: 202-272-0167
EPA issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. EPA publishes non-confidential business information (non-CBI) and includes descriptive information about each site, corporate parent, production volume, other manufacturing information, and processing and use information.

PFAS TRIS: List of PFAS Added to the TRI
Source: Environmental Protection Agency
Telephone: 202-566-0250
Section 7321 of the National Defense Authorization Act for Fiscal Year 2020 (NDAA) immediately added certain per- and polyfluoroalkyl substances (PFAS) to the list of chemicals covered by the Toxics Release Inventory (TRI) under Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA) and provided a framework for additional PFAS to be added to TRI on an annual basis.

PFAS RCRA MANIFEST: PFAS Transfers Identified in the RCRA Database Listing
Source: Environmental Protection Agency
Telephone: 202-272-0167
To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information

(DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ATSDR: PFAS Contamination Site Location Listing
Source: Department of Health & Human Services
Telephone: 202-741-5770
PFAS contamination site locations from the Department of Health & Human Services, Center for Disease Control & Prevention. ATSDR is involved at a number of PFAS-related sites, either directly or through assisting state and federal partners. As of now, most sites are related to drinking water contamination connected with PFAS production facilities or fire training areas where aqueous film-forming firefighting foam (AFFF) was regularly used.

PFAS WQP: Ambient Environmental Sampling for PFAS
Source: Environmental Protection Agency
Telephone: 202-272-0167
The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. This information is commonly used for research and assessments of environmental quality.

PFAS NPDES: Clean Water Act Discharge Monitoring Information
Source: Environmental Protection Agency
Telephone: 202-272-0167
Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing
Source: Environmental Protection Agency
Telephone: 202-272-0167
Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing
Source: Environmental Protection Agency
Telephone: 202-272-0167
A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing
Source: Environmental Protection Agency
Telephone: 202-272-0167
Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meets military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing
Source: Environmental Protection Agency
Telephone: 202-267-2675
The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the Material Involved or Incident Description fields.

PCS: Permit Compliance System
Source: EPA, Office of Water
Telephone: 202-564-2496
PCS is a computerized management information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

PCS ENF: Enforcement data
Source: EPA
Telephone: 202-564-2497
No description is available for this data

BIOSOLIDS: ICIS-NPDES Biosolids Facility Data
Source: Environmental Protection Agency
Telephone: 202-564-4700
The data reflects compliance information about facilities in the biosolids program.

AQUEOUS FOAM: Former Fire Training Facility Assessments Listing
Source: State Water Resources Control Board
Telephone: 916-341-5455
Airports shown on this list are those believed to use Aqueous Film Forming Foam (AFFF) and certified by the Federal Aviation Administration (FAA) under Title 14, Code of Federal Regulations (CFR), Part 139 (14 CFR Part 139). This list was created by SWRCB using information available from the FAA. Location points shown are from the latitude and longitude listed on the FAA airport master record.

Local Lists of Registered Storage Tanks

SWEEPS UST: SWEEPS UST Listing
Source: State Water Resources Control Board
Telephone: N/A
Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

HIST UST: Hazardous Substance Storage Container Database
Source: State Water Resources Control Board
Telephone: 916-341-5851
The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.

CA FID UST: Facility Inventory Database
Source: California Environmental Protection Agency
Telephone: 916-341-5851
The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

CERS TANKS: California Environmental Reporting System (CERS) Tanks
Source: California Environmental Protection Agency
Telephone: 916-323-2514
List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs.

Local Land Records

LIENS: Environmental Liens Listing
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
The sites for the list are designated by the State Water Resources Control Board (LUST), the Integrated Waste Management Board (SWF/LS), and the Department of Toxic Substances Control (Cal-Sites).

LIENS 2: CERCLA Lien Information
Source: Environmental Protection Agency
Telephone: 202-564-6023
A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

DEED: Deed Restriction Listing
Source: DTSC and SWRCB
Telephone: 916-323-3400
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Records of Emergency Release Reports

HMIRS: Hazardous Materials Information Reporting System
Source: U.S. Department of Transportation
Telephone: 202-366-4555
Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

CHMIRS: California Hazardous Material Incident Report System
Source: Office of Emergency Services
Telephone: 916-845-8400
California Hazardous Material Incident Reporting System. CHMIRS contains information on reported hazardous material incidents (accidental releases or spills).

LDS: Land Disposal Sites Listing (GEOTRACKER)
Source: State Water Quality Control Board
Telephone: 866-480-1028
Land Disposal sites (Landfills) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

MCS: Military Cleanup Sites Listing (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Military sites (consisting of: Military UST sites; Military Privatized sites; and Military Cleanup sites [formerly known as DoD non-UST]) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

SPILLS 90: SPILLS90 data from FirstSearch
Source: FirstSearch
Telephone: N/A
Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non-Generators / No Longer Regulated
Source: Environmental Protection Agency
Telephone: 415 495-8895
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

FUDS: Formerly Used Defense Sites
Source: U.S. Army Corps of Engineers
Telephone: 202-528-4285
The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

DOD: Department of Defense Sites
Source: USGS
Telephone: 888-275-8747
This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

FEDLAND: Federal and Indian Lands
Source: U.S. Geological Survey
Telephone: 888-275-8747
Federally and Indian administrated lands of the United States. Lands included are administrated by: Army Corps of Engineers, Bureau of Reclamation, National Wild and Scenic River, National Wildlife Refuge, Public Domain Land, Wilderness, Wilderness Study Area, Wildlife Management Area, Bureau of Indian Affairs, Bureau of Land Management, Department of Justice, Forest Service, Fish and Wildlife Service, National Park Service

SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing
Source: Environmental Protection Agency
Telephone: 615-532-8599
The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

US FIN ASSUR: Financial Assurance Information
Source: Environmental Protection Agency
Telephone: 202-566-1917
All owners and operators of facilities that treat, store, or dispose of hazardous waste are required to provide proof that they will have sufficient funds to pay for the clean-up, closure, and post-closure care of their facilities.

EPA WATCH LIST: EPA WATCH LIST
Source: Environmental Protection Agency
Telephone: 617-520-3000
EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List
Source: Environmental Protection Agency
Telephone: 703-308-4044
The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

TSCA: Toxic Substances Control Act
Source: EPA
Telephone: 202-260-5521
Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

TRIS: Toxic Chemical Release Inventory System
Source: EPA
Telephone: 202-566-0250
Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water, and land in reportable quantities under SARA Title III Section 313.

SSTS: Section 7 Tracking Systems
Source: EPA
Telephone: 202-564-4203
Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

ROD: Records Of Decision
Source: EPA
Telephone: 703-416-0223
Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

RMP: Risk Management Plans
Source: Environmental Protection Agency
Telephone: 202-564-8600
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic

substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System
Source: EPA
Telephone: 202-564-4104
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

PRP: Potentially Responsible Parties
Source: EPA
Telephone: 202-564-6023
A listing of verified Potentially Responsible Parties.

PADS: PCB Activity Database System
Source: EPA
Telephone: 202-566-0500
PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

ICIS: Integrated Compliance Information System
Source: Environmental Protection Agency
Telephone: 202-564-2501
The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Telephone: 202-566-1667
USTs on Indian land in Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations

FTTS INSP: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act) A listing of FIFRA/TSCA Tracking System (FTTS) inspections and enforcements.
Source: EPA
Telephone: 202-566-1667

MLTS: Material Licensing Tracking System
Source: Nuclear Regulatory Commission
Telephone: 301-415-7169
MLTS is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites which possess or use radioactive materials, and which are subject to NRC licensing requirements. To maintain currency, EDR contacts the Agency on a quarterly basis.

COAL ASH DOE: Steam-Electric Plant Operation Data
Source: Department of Energy
Telephone: 202-586-8719
A listing of power plants that store ash in surface ponds.

COAL ASH EPA: Coal Combustion Residues Surface Impoundments List
Source: Environmental Protection Agency
Telephone: N/A
A listing of coal combustion residues surface impoundments with high hazard potential ratings.

PCB TRANSFORMER: PCB Transformer Registration Database
Source: Environmental Protection Agency
Telephone: 202-566-0517
The database of PCB transformer registrations includes all PCB registration submittals.

RADINFO: Radiation Information Database
Source: Environmental Protection Agency
Telephone: 202-343-9775
The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
Source: Environmental Protection Agency
Telephone: 202-564-2501
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
Source: Environmental Protection Agency
Telephone: 202-564-2501
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

DOT OPS: Incident and Accident Data
Source: Department of Transportation, Office of Pipeline Safety
Telephone: 202-366-4595
Department of Transportation, Office of Pipeline Safety Incident and Accident data.

CONSENT: Superfund (CERCLA) Consent Decrees
Source: Department of Justice, Consent Decree Library
Telephone: Varies
Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

BRS: Biennial Reporting System
Source: EPA/NTIS
Telephone: 800-424-9346
The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

INDIAN RESERV: Indian Reservations
Source: USGS
Telephone: 202-208-3710
This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

FUSRAP: Formerly Utilized Sites Remedial Action Program
Source: Department of Energy
Telephone: 202-586-3559
DOE established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations.

UMTRA: Uranium Mill Tailings Sites
Source: Department of Energy
Telephone: 505-845-0011
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

LEAD SMELTER: Lead Smelter Sites
Source: Environmental Protection Agency
Telephone: 703-603-8787
A listing of former lead smelter site locations.

LEAD SMELTER 2: Lead Smelter Sites
Source: American Journal of Public Health
Telephone: 703-305-6451
A list of several hundred sites in the U.S. where secondary lead smelting was done from 1931 and 1964. These sites may pose a threat to public health through ingestion or inhalation of contaminated soil or dust.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
Source: EPA
Telephone: 202-564-2496
The database is a sub-system of the Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

US AIRS MINOR: Air Facility System Data
Source: EPA
Telephone: 202-564-2496
A listing of minor source facilities.

MINES VIOLATIONS: MSHA Violation Assessment Data
Source: DOL, Mine Safety & Health Admi
Telephone: 202-693-9424
Mines violation and assessment information. Department of Labor, Mine Safety & Health Administration.

US MINES: Mines Master Index File
Source: Department of Labor, Mine Safety and Health Administration
Telephone: 303-231-5959
Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation information.

US MINES 2: Ferrous and Nonferrous Metal Mines Database Listing
Source: USGS
Telephone: 703-648-7709
This map layer includes ferrous (ferrous metal mines are facilities that extract ferrous metals, such as iron ore or molybdenum) and nonferrous (Nonferrous metal mines are facilities that extract nonferrous metals, such as gold, silver, copper, zinc, and lead) metal mines in the United States.

US MINES 3: Active Mines & Mineral Plants Database Listing
Source: USGS
Telephone: 703-648-7709
Active Mines and Mineral Processing Plant operations for commodities monitored by the Minerals Information Team
of the USGS.

ABANDONED MINES: Abandoned Mines
Source: Department of Interior
Telephone: 202-208-2609
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

FINDS: Facility Index System/Facility Registry System
Source: EPA
Telephone: 415- 947-8000
Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

DOCKET HWC: Hazardous Waste Compliance Docket Listing
Source: Environmental Protection Agency
Telephone: 202-564-0527
A complete list of the Federal Agency Hazardous Waste Compliance Docket Facilities.

ECHO: Enforcement & Compliance History Information
Source: Environmental Protection Agency
Telephone: 202-564-2280
CHO provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.

UXO: Unexploded Ordnance Sites
Source: Department of Defense
Telephone: 703-704-1564
A listing of unexploded ordnance site locations.

FUELS PROGRAM: EPA Fuels Program Registered Listing
Source: EPA
Telephone: 800-385-6164
This listing includes facilities that are registered under the Part 80 (Code of Federal Regulations) EPA Fuels Programs. All companies now are required to submit new and updated registrations.

CA BOND EXP. PLAN: Bond Expenditure Plan
Source: Department of Health Services
Telephone: 916-255-2118
Department of Health Services developed a site-specific expenditure plan as the basis for an appropriation of Hazardous Substance Cleanup Bond Act funds. It is not updated.

CORTESE: "Cortese" Hazardous Waste & Substances Sites Lis
Source: CAL EPA/Office of Emergency Information
Telephone: 916-323-3400
A listing of power plants that store ash in surface ponds.

CHROME PLATING: Chrome Plating Facilities Listing
Source: State Water Resources Control Board
Telephone: 916-341-5455
This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.
Source: State Water Resources Control Board
Telephone: 916-341-5455

DRYCLEAN SOUTH COAST: South Coast Air Quality Management District Drycleaner Listing
Source: South Coast Air Quality Management District
Telephone: 909-396-3211
A listing of dry cleaners in the South Coast Air Quality Management District.

DRYCLEANERS: Cleaner Facilities
Source: Department of Toxic Substance Control
Telephone: 916-327-4498
A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaner's agents; linen supply; coin-operated laundries and cleaning; drycleaning plants, except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

EMI: Emissions Inventory Data
Source: California Air Resources Board
Telephone: 916-322-2990
Toxics and criteria pollutant emissions data collected by the ARB and local air pollution agencies.

ENF: Enforcement Action Listing
Source: State Water Resources Control Board
Telephone: 916-445-9379
A listing of Water Board Enforcement Actions. Formal is everything except Oral/Verbal Communication, Notice of Violation, Expedited Payment Letter, and Staff Enforcement Letter.

Financial Assurance: Financial Assurance Information Listing
Source: California Integrated Waste Management Board
Telephone: 916-341-6066
A listing of financial assurance information for solid waste facilities. Financial assurance is intended to ensure that resources are available to pay for the cost of closure, post-closure care, and corrective measures if the owner or operator of a regulated facility is unable or unwilling to pay.

HAZNET: Facility and Manifest Data
Source: California Environmental Protection Agency
Telephone: 916-255-1136
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

ICE: ICE
Source: Department of Toxic Substances Control
Telephone: 877-786-9427
Contains data pertaining to the Permitted Facilities with Inspections / Enforcements sites tracked in Envirostor.

HIST CORTESE: Hazardous Waste & Substance Site List
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

HWP: EnviroStor Permitted Facilities Listing
Source: Department of Toxic Substances Control
Telephone: 916-323-3400
Detailed information on permitted hazardous waste facilities and corrective action ("cleanups") tracked in EnviroStor.

HWT: Registered Hazardous Waste Transporter Database
Source: Department of Toxic Substances Control
Telephone: 916-440-7145
A listing of hazardous waste transporters. In California, unless specifically exempted, it is unlawful for any person to transport hazardous waste unless the person holds a valid registration issued by DTSC. A hazardous waste transporter registration is valid for one year and is assigned a unique registration number.

MINES: Mines Site Location Listing
Source: Department of Conservation
Telephone: 916-322-1080
A listing of mine site locations from the Office of Mine Reclamation.

MWMP: Medical Waste Management Program Listing
Source: Department of Public Health
Telephone: 916-558-1784
The Medical Waste Management Program (MWMP) ensures the proper handling and disposal of medical waste by permitting and inspecting medical waste Offsite Treatment Facilities (PDF) and Transfer Stations (PDF) throughout the state. MWMP also oversees all Medical Waste Transporters.

NPDES: NPDES Permits Listing
Source: State Water Resources Control Board
Telephone: 202-586-8719
A listing of NPDES permits, including stormwater.

PEST LIC: Pesticide Regulation Licenses Listing
Source: Department of Pesticide Regulation
Telephone: 916-445-4038
A listing of licenses and certificates issued by the Department of Pesticide Regulation. The DPR issues licenses and/or certificates to: Persons and businesses that apply or sell pesticides; Pest control dealers and brokers; Persons who advise on agricultural pesticide applications.

PROC: Certified Processors Database
Source: Department of Conservation
Telephone: 916-323-3836
A listing of certified processors.

NOTIFY 65: Proposition 65 Records
Source: State Water Resources Control Board
Telephone: 916-445-3846
Listings of all Proposition 65 incidents reported to counties by the State Water Resources Control Board and the Regional Water Quality Control Board. This database is no longer updated by the reporting agency.

UIC: UIC Listing
Source: Department of Conservation
Telephone: 916-445-2408
A listing of wells identified as underground injection wells, in the California Oil and Gas Wells database.

UIC GEO: Underground Injection Control Sites (GEOTRACKER)
Source: State Water Resource Control Board
Telephone: 866-480-1028
Underground control injection sites.

WASTEWATER PITS: Oil Wastewater Pits Listing
Source: RWQCB, Central Valley Region
Telephone: 559-445-5577
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDS: Waste Discharge System
Source: State Water Resources Control Board
Telephone: 916-341-5227
Sites which have been issued waste discharge requirements.

WIP: Well Investigation Program Case List
Source: Los Angeles Water Quality Control Board
Telephone: 213-576-6726
A listing of power plants that store ash in surface ponds.

MILITARY PRIV SITES: Military Privatized Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Military privatized sites

PROJECT: Project Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Projects sites

WDR: Waste Discharge Requirements Listing
Source: State Water Resources Control Board
Telephone: 916-341-5810
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non-Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of waste classified as inert, pursuant to section 20230 of Title 27.

CIWQS: California Integrated Water Quality System
Source: State Water Resources Control Board
Telephone: 866-794-4977
The California Integrated Water Quality System (CIWQS) is a computer system used by the State and Regional Water Quality Control Boards to track information about places of environmental interest, manage permits and other orders, track inspections, and manage violations and enforcement activities.

CERS: CalEPA Regulated Site Portal Data
Source: California Environmental Protection Agency
Telephone: 916-323-2514
The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in
California into a single database. It combines data from a variety of state and federal databases and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state, and federal cleanups, impacted ground and surface waters, and toxic materials.

NON-CASE INFO: Non-Case Information Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Non-Case Information sites

OTHER OIL GAS: Other Oil & Gas Projects Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Other Oil & Gas Projects sites.

PROD WATER PONDS: Produced Water Ponds Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Produced water ponds sites.

SAMPLING POINT: Sampling Point Public Sites (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Sampling point - public sites

WELL STIM PROJ: Well Stimulation Project (GEOTRACKER)
Source: State Water Resources Control Board
Telephone: 866-480-1028
Includes areas of groundwater monitoring plans, a depiction of the monitoring network, and the facilities, boundaries, and subsurface characteristics of the oilfield and the features (oil and gas wells, produced water ponds, UIC wells, water supply wells, etc?) being monitored.

PCS: Permit Compliance System
Source: EPA, Office of Water
Telephone: 202-564-2496
PCS is a computerized management information system that contains data on National Pollutant Discharge Elimination System (NPDES) permit holding facilities. PCS tracks the permit, compliance, and enforcement status of NPDES facilities.

HWTS: Hazardous Waste Tracking System
Source: Department of Toxic Substances Control
Telephone: 916-324-2444
DTSC maintains the Hazardous Waste Tracking System that stores ID number information since the early 1980s and manifest data since 1993. The system collects both manifest copies from the generator and destination facility.

PCS INACTIVE: Listing of Inactive PCS Permits
Source: EPA
Telephone: 202-564-2496
An inactive permit is a facility that has shut down or is no longer discharging.

PCS ENF: Enforcement data
Source: EPA
Telephone: 202-564-2497
No description is available for this data.

MINES MRDS: Mineral Resources Data System
Source: USGS
Telephone: 703-648-6533
Mineral Resources Data System

EDR HIGH RISK HISTORICAL RECORDS

EDR MGP: EDR Proprietary Manufactured Gas Plants
Source: EDR, Inc
Telephone: N/A
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
Source: EDR, Inc.
Telephone: N/A
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners
Source: EDR, Inc.
Telephone: N/A
EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns but may not show up in current government records searches.

EDR RECOVERED GOVERNMENT ARCHIVES

Exclusive Recovered Gov't Archives

RGA LF: Recovered Government Archive Solid Waste Facilities List
Source: Department of Resources Recycling and Recovery
Telephone: N/A

The EDR Recovered Government Archive Landfill database provides a list of landfills derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Resources Recycling and Recovery in California.

RGA LUST: Recovered Government Archive Leaking Underground Storage Tank
Source: State Water Resources Control Board
Telephone: N/A
The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the State Water Resources Control Board in California.

COUNTY RECORDS

LUST RIVERSIDE: Listing of Underground Tank Cleanup Sites
Source: Department of Environmental Health
Telephone: 951-358-5055
Riverside County Underground Storage Tank Cleanup Sites (LUST).

UST RIVERSIDE: Underground Storage Tank List
Source: Department of Environmental Health
Telephone: 951-358-5055
Underground storage tank sites located in Riverside County.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

6.1 TARGET PROPERTY SEARCH RESULTS

A search of available environmental records was conducted by EDR and reviewed as part of preparing this ESA. The EDR database report meets the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), and the ASTM Standard Practice for Environmental Site Assessments (E 1527-21) for the evaluation of environmental risk associated with a parcel of real estate. The Summary Radius Map Report, provided by EDR, did not identify any environmental records for the subject site.

6.2 SURROUNDING SITES SEARCH RESULTS

EDR was utilized to conduct a search of environmental databases within a one-mile radius of the subject site to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), and the ASTM Standard Practice for Environmental Site Assessments (E 1527-21) for the evaluation of environmental risk associated with a parcel of real estate. A copy of the EDR Report is contained in Appendix D.

No surrounding sites were identified as a result of the environmental site assessment.

Orphan Sites: These are sites that cannot be mapped because of poor or inadequate information relating to the location of the site in relation to the subject site. One site could not be geographically located in relation to the subject property. This Site was determined to be an illegal drug lab location where an illegal drug operation occurred, or drug lab equipment and/or materials were stored. However, the listing of a location in the CDL database does not indicate that any illegal drug lab materials were or were not present there and does not constitute a determination that the location either requires or does not require additional cleanup work. Refer to Table 3 for site information and Appendix D for additional information.

Table 3
Orphan Sites

Site Name	Site Address	Database(s)
Unknown	One mile west of Sage Rd. on Benton Rd.	CDL-Clandestine Drug Labs

6.3 VAPOR ENCROACHMENT

The purpose of the preliminary vapor encroachment screen is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of vapor chemicals of concern (COC) in subsurface soils at the site caused by the release of volatile organic compounds from contaminated soils or groundwater either on or near the site. The potential for VECs beneath the site was evaluated using EDR's Vapor Encroachment Screen in accordance with ASTM E 2600-10 Standard Guide for Vapor Encroachment Screening. The evaluation included performing a Search Distance Test to identify if there are any known or potential contaminated properties surrounding or up gradient of the site within specific search radii, a COC test (for those known or suspect contaminated sites identified within the Search Distance Test) to evaluate whether or not COCs are likely to be present, and a Critical Distance Test to evaluate whether or not COCs in a contaminated plume may be within the critical distance of the site (100 feet for non-petroleum hydrocarbon contaminants and 30 feet for petroleum hydrocarbons contaminants).

A search of available environmental records was conducted by EDR. The report was designed to assist parties seeking to meet the search requirements of the ASTM Standard Practice for Assessment of Vapor Encroachment into Structures on Property Involved in Real Estate Transactions (E 2600). No surrounding sites were identified as a result of the environmental site assessment. Refer to Appendix D-1 for the EDR Vapor Encroachment Screen.

7.0 CONCLUSION

Based on the Phase I ESA visual inspection of the subject site and the surrounding area; an environmental records search and review of local, federal, and State databases; and in accordance with the limitations presented in this report, Lilburn Corporation presents the following conclusions concerning the subject site:

- No evidence was observed that the property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility. Additionally, no evidence was observed that there have been any previously damaged or discarded automotive or industrial batteries, paints, or other chemicals individually stored on or used at the property or at the subject site.
- No evidence that fill dirt has been brought onto the property that originated from a contaminated site or from an unknown origin was observed.
- No pits, ponds, or lagoons were observed on the property in connection with waste treatment or waste disposal.
- No signs or evidence of stained soil were observed on the property.
- Portions of the Site appear to have been cleared or used for dry farming (EDR Aerial 1967) . However, dry farming does not trigger a need for additional evaluation as crops rely entirely on residual soil moisture stored from winter rains.
- No evidence was observed of any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property were made.
- No indication or evidence of leaks, spills, or staining by substances other than water, or foul odors, associated with any flooring drains, walls, ceilings or exposed grounds on the property was observed.
- No observations were made of evidence that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been buried and/or burned on the property.
- No transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs was observed.
- Local records reviewed to date have not revealed environmental concerns or issues that would be considered an immediate impairment to property development.
- No geologic or hydrogeologic impairments to the subject site were encountered.
- Federal and State environmental databases revealed no environmental issues, which would be considered “an impairment” or REC to the subject site. Refer to Appendix D for a copy of the EDR Report.

The information procured during this investigation was used to identify, to the extent practical and within the limitations of the Scope, RECs associated with the subject site due to current or past land use. The site reconnaissance and records review conducted during this Phase I ESA did not identify any RECs associated with storage, treatment, disposal, or releases of hazardous substances or petroleum products associated with the site or any adjacent properties. This assessment has revealed no evidence of RECs at the site and a Phase II Environmental Assessment is not recommended.

CERTIFICATION

I, Frank Amendola certify and agree that:

(1) The inspector has no present or contemplated future interest in the site inspected.

(2) The inspector has no personal interest in or bias with respect to the subject matter of the assessment report or the participants in the sale. This Site Assessment Report is not based in whole or in part upon the race, color, or national origin of the prospective owners or occupants of the site inspected, or upon the race, color or national origin of the present owners or occupants of the properties in the vicinity of the site inspected.

(3) To the best of the inspector's knowledge and belief, all statements and information in this Site Assessment Report are true and correct, and the inspector has not knowingly withheld any significant information.

(4) The legal description and address furnished is correct according to the information furnished to the inspector.

(5) This Site Assessment Report was prepared in conformity with and is subject to the requirements of the Code of Professional Ethics and Standards of Professional Conduct of the environmental organizations with which the inspector is affiliated.

(6) All conclusions and opinions concerning the subject site that are set forth in the Site Assessment Report were prepared by the inspector whose signature appears below.

(7) I declare that to the best of my professional knowledge and belief, I meet the definition of an Environmental Professional as defined in ASTM E 1527-05 and 40 CFR 312.10. I have the specific qualification based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed all appropriate inquiries in conformance with the standard and practices set forth in 40 CFR Part 312.

Frank Amendola February 16, 2024

QUALIFICATIONS STATEMENT

Lilburn Corporation is a full-service environmental consulting company with extensive experience in the completion of Phase I ESAs, having completed more than 100 ESAs in the last 20 years. Lilburn Corporation staff responsible for preparation of Phase I ESAs (including this document) have extensive experience in completing Phase I ESAs in accordance with the current American Society of Testing and Materials standard practice document (ASTM E 1527-05). The resumes of the individual environmental professionals responsible for the completion of this Phase I ESA are included in Appendix G.

This Phase I ESA was completed under the direction of an "Environmental Professional" as defined in ASTM E 1527-05 and 40 CFR 312.10. The Environmental Professional was involved in the planning of the site reconnaissance and the interviews as well as the review and preparation of the report.

LIMITATIONS

The services described in this report were performed consistent with generally accepted professional consulting principles and practices. No other warranty, express or implied, is made. These services were performed consistent with our agreement with our client. This report is solely for the use and information of our client unless otherwise noted. Any reliance on this report by a third party is at such party's sole risk.

Opinions and recommendations contained in this report apply to conditions existing when services were performed and are intended only for the client, purposes, locations, time frames, and project parameters indicated. No laboratory testing was performed in conjunction with this report. We are not responsible for the impact of any changes in environmental standards, practices, or regulations subsequent to the performance of services. We do not warrant the accuracy of information supplied by others, nor the use of segregated portions of this report.

The purpose of an environmental assessment is to reasonably evaluate the potential for or actual impact of past practices on a given site area. In performing an environmental assessment, it is understood that a balance must be struck between a reasonable inquiry into the environmental issues and an exhaustive analysis of each conceivable issue of potential concern. The following paragraphs discuss the assumptions and parameters under which such an opinion is rendered.

No investigation is thorough enough to exclude the presence of hazardous materials at a given site. If hazardous conditions have not been identified during the assessment, such a finding should not therefore be construed as a guarantee of the absence of such materials on the site, but rather as the result of the services performed within the scope, limitations, and cost of the work performed.

Environmental conditions may exist at the site that cannot be identified by visual observation. Where subsurface work was performed, our professional opinions are based in part on interpretation of data from discrete sampling locations that may not represent actual conditions at unsampled locations.

Except where there is express concern of our client, or where specific environmental contaminants have been previously reported by others, naturally occurring toxic substances, potential environmental contaminants inside buildings, or contaminant concentrations that are not of current environmental concern may not be reflected in this document.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL ---------- National Priority List
Proposed NPL ---------- Proposed National Priority List Sites
NPL LIENS ---------- Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL ---------- National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY ---------- Federal Facility Site Information listing
SEMS ---------- Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE ---------- Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS ---------- Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF ---------- RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG ---------- RCRA - Large Quantity Generators
RCRA-SQG ---------- RCRA - Small Quantity Generators
RCRA-VSQG ---------- RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

Federal institutional controls / engineering controls registries

LUCIS ---------- Land Use Control Information System

US ENG CONTROLS..... Engineering Controls Sites List
US INST CONTROLS..... Institutional Controls Sites List

Federal ERNS list

ERNS..... Emergency Response Notification System

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE..... State Response Sites

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR..... EnviroStor Database

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF..... Solid Waste Information System

Lists of state and tribal leaking storage tanks

LUST..... Geotracker's Leaking Underground Fuel Tank Report
INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land
CPS-SLIC..... Statewide SLIC Cases

Lists of state and tribal registered storage tanks

FEMA UST..... Underground Storage Tank Listing
UST..... Active UST Facilities
AST..... Aboveground Petroleum Storage Tank Facilities
INDIAN UST..... Underground Storage Tanks on Indian Land

Lists of state and tribal voluntary cleanup sites

VCP..... Voluntary Cleanup Program Properties
INDIAN VCP..... Voluntary Cleanup Priority Listing

Lists of state and tribal brownfield sites

BROWNFIELDS..... Considered Brownfieds Sites Listing

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS..... A Listing of Brownfields Sites

Local Lists of Landfill / Solid Waste Disposal Sites

WMUDS/SWAT..... Waste Management Unit Database
SWRCY..... Recycler Database
HAULERS..... Registered Waste Tire Haulers Listing
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands
ODI..... Open Dump Inventory

DEBRIS REGION 9 ---------- Torres Martinez Reservation Illegal Dump Site Locations
IHS OPEN DUMPS ---------- Open Dumps on Indian Land

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL ---------- Delisted National Clandestine Laboratory Register
HIST Cal-Sites ---------- Historical Calsites Database
SCH ---------- School Property Evaluation Program
CDL ---------- Clandestine Drug Labs
CERS HAZ WASTE ---------- California Environmental Reporting System Hazardous Waste
Toxic Pits ---------- Toxic Pits Cleanup Act Sites
US CDL ---------- National Clandestine Laboratory Register

Local Lists of Registered Storage Tanks

SWEEPS UST ---------- SWEEPS UST Listing
HIST UST ---------- Hazardous Substance Storage Container Database
CERS TANKS ---------- California Environmental Reporting System (CERS) Tanks
CA FID UST ---------- Facility Inventory Database

Local Land Records

LIENS ---------- Environmental Liens Listing
LIENS 2 ---------- CERCLA Lien Information
DEED ---------- Deed Restriction Listing

Records of Emergency Release Reports

HMIRS ---------- Hazardous Materials Information Reporting System
CHMIRS ---------- California Hazardous Material Incident Report System
LDS ---------- Land Disposal Sites Listing
MCS ---------- Military Cleanup Sites Listing
SPILLS 90 ---------- SPILLS 90 data from FirstSearch

Other Ascertainable Records

RCRA NonGen / NLR ---------- RCRA - Non Generators / No Longer Regulated
FUDS ---------- Formerly Used Defense Sites
DOD ---------- Department of Defense Sites
SCRD DRYCLEANERS ---------- State Coalition for Remediation of Drycleaners Listing
US FIN ASSUR ---------- Financial Assurance Information
EPA WATCH LIST ---------- EPA WATCH LIST
2020 COR ACTION ---------- 2020 Corrective Action Program List
TSCA ---------- Toxic Substances Control Act
TRIS ---------- Toxic Chemical Release Inventory System
SSTS ---------- Section 7 Tracking Systems
ROD ---------- Records Of Decision
RMP ---------- Risk Management Plans
RAATS ---------- RCRA Administrative Action Tracking System
PRP ---------- Potentially Responsible Parties
PADS ---------- PCB Activity Database System
ICIS ---------- Integrated Compliance Information System
FTTS ---------- FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
MLTS ---------- Material Licensing Tracking System

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/19/2023

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

CHROME PLATING: Chrome Plating Facilities Listing
This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Telephone: 916-323-3400
Last EDR Contact: 11/10/2023
Next Scheduled EDR Contact: 02/26/2024
Data Release Frequency: Quarterly

HWT: Registered Hazardous Waste Transporter Database
A listing of hazardous waste transporters. In California, unless specifically exempted, it is unlawful for any person to transport hazardous wastes unless the person holds a valid registration issued by DTSC. A hazardous waste transporter registration is valid for one year and is assigned a unique registration number.

Date of Government Version: 06/29/2023
Date Data Arrived at EDR: 06/29/2023
Date Made Active in Reports: 09/19/2023
Number of Days to Update: 82

Last EDR Contact: 09/27/2023
Next Scheduled EDR Contact: 01/15/2024
Data Release Frequency: Varies

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2021

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region’s active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

SUN GROWN FARMS, INC
38455 E BENTON RD
HEMET, CA 92544

TARGET PROPERTY COORDINATES

Latitude (North):	33.567097 - 33° 34' 1.55''
Longitude (West):	116.940719 - 116° 56' 26.59''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	505502.2
UTM Y (Meters):	3713966.8
Elevation:	2282 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50004293 SAGE, CA
Version Date:	2021

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

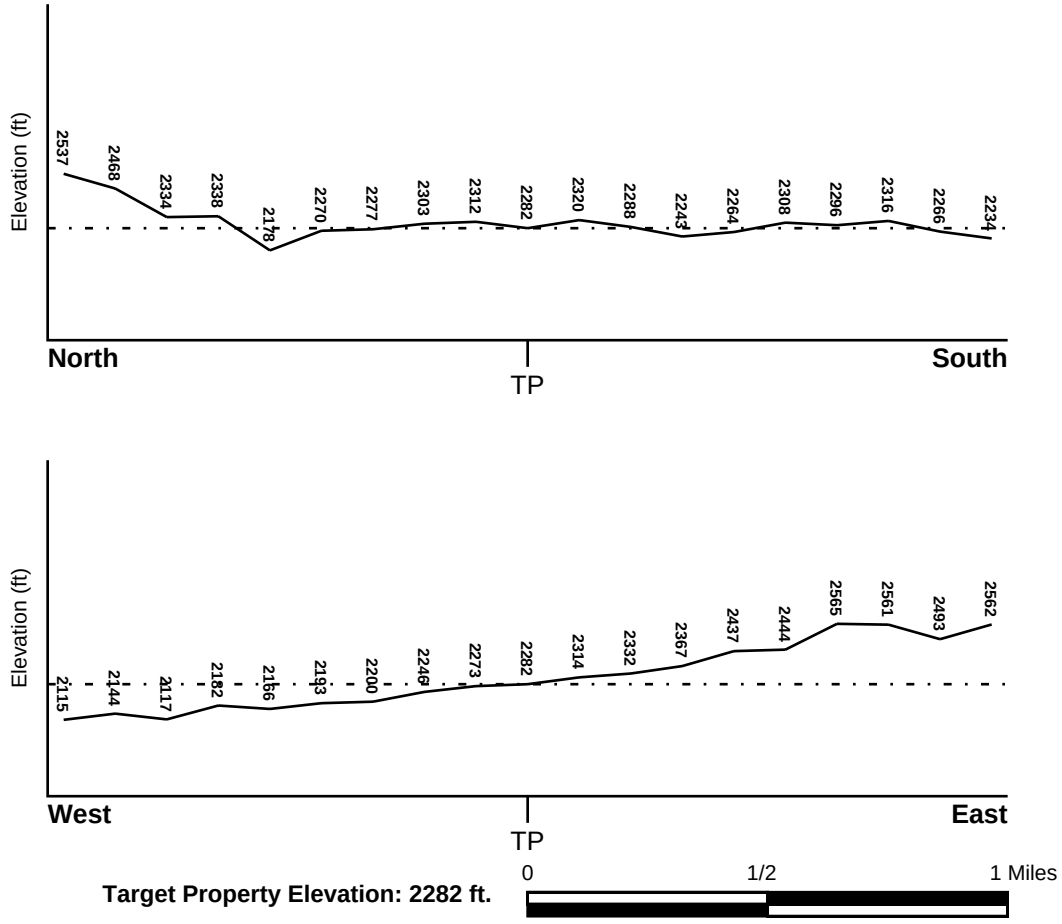

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
0602452800A	FEMA Q3 Flood data

Additional Panels in search area:	FEMA Source Type
Not Reported	

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
SAGE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

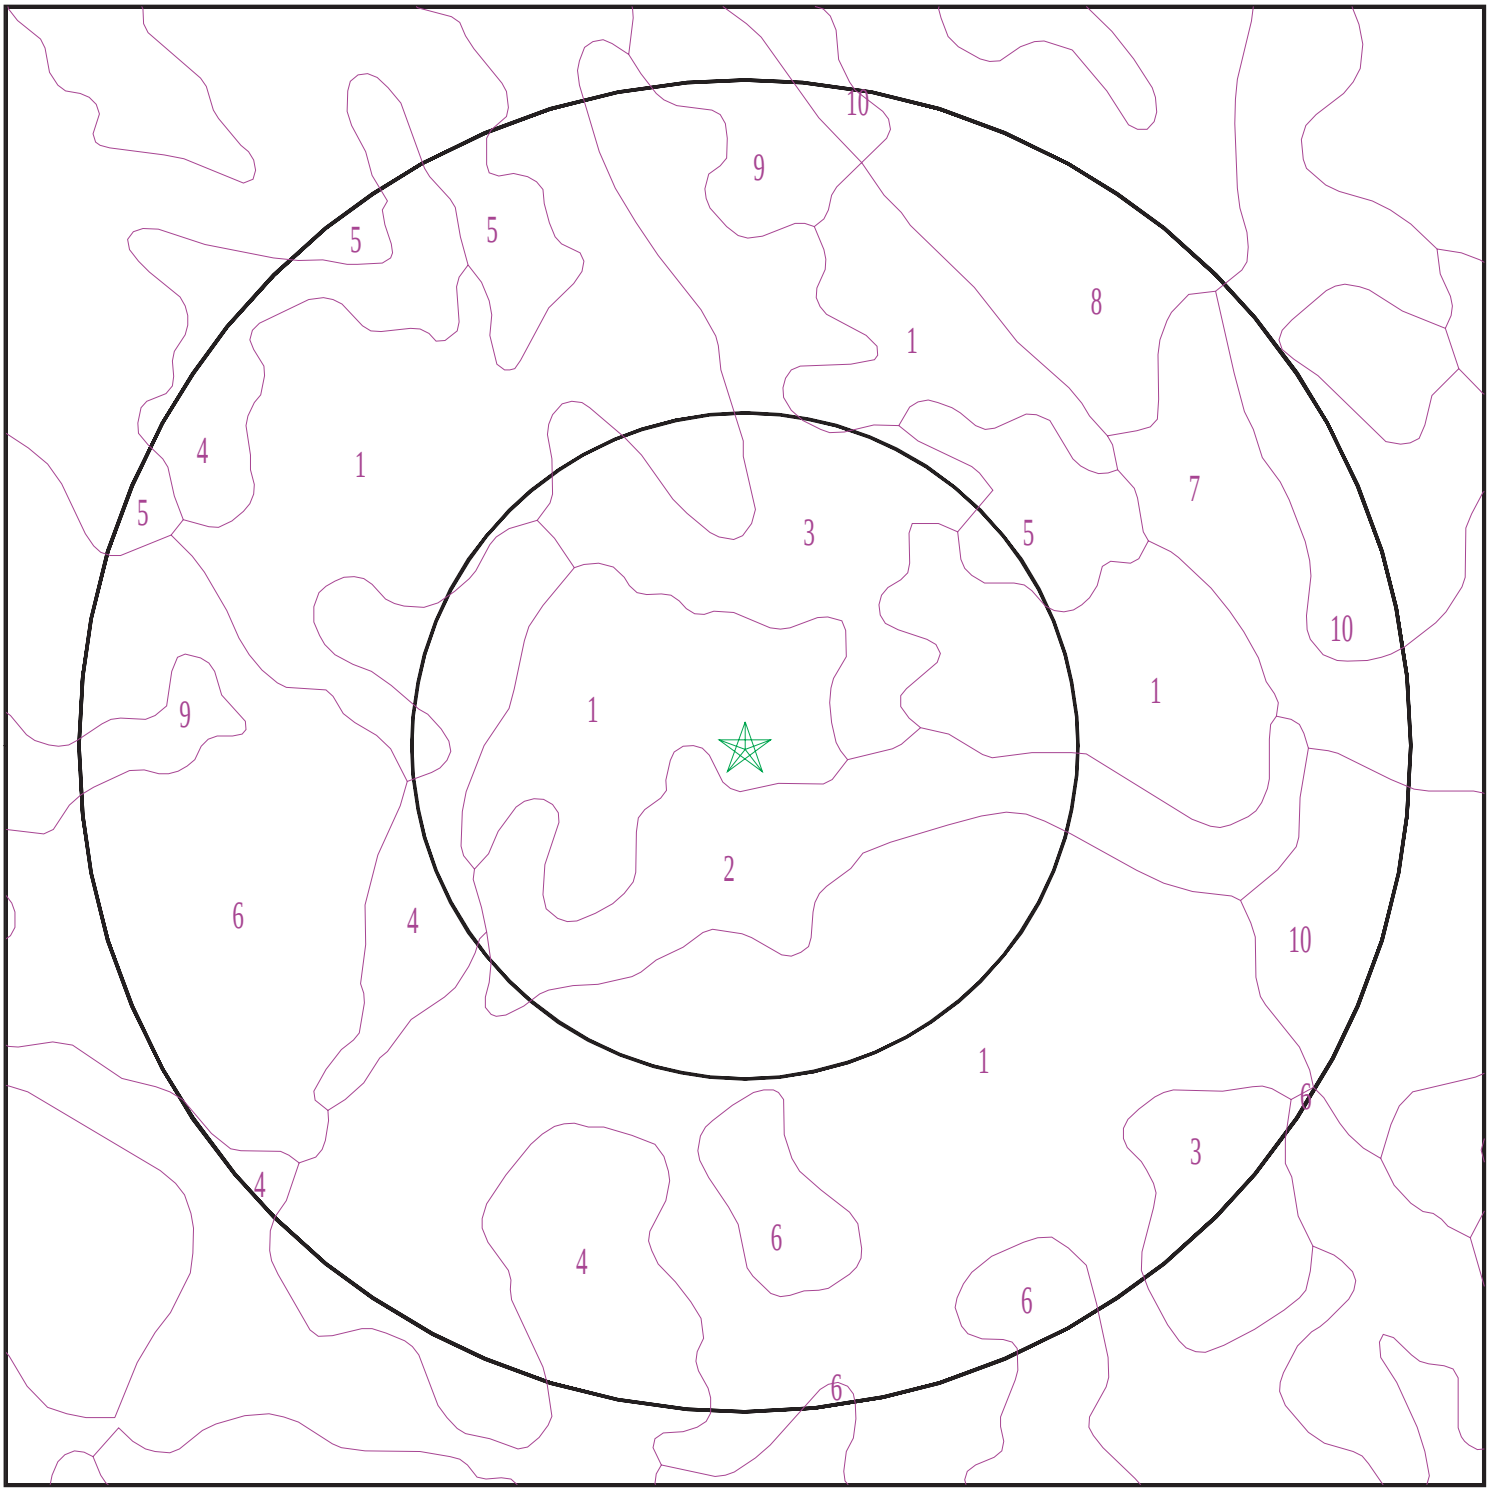

Era:	Mesozoic
System:	Cretaceous
Series:	Cretaceous granitic rocks
Code:	Kg *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Plutonic and Intrusive Rocks

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: FALLBROOK

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	5 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
2	5 inches	18 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:
3	18 inches	22 inches	weathered bedrock	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	Not reported	Max: 0.42 Min: 0	Max: Min:

Soil Map ID: 2

Soil Component Name: CIENEBA

Soil Surface Texture: sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	Not reported	Max: 0.42 Min: 0	Max: Min:
2	14 inches	22 inches	weathered bedrock	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	Not reported	Max: 0.42 Min: 0	Max: Min:

Soil Map ID: 3

Soil Component Name: FALLBROOK

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Low

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Certified Sanborn® Map Report

11/29/23

Site Name:

Sun Grown Farms, Inc
38455 E BENTON RD
HEMET, CA 92544
EDR Inquiry # 7508428.3

Client Name:

Lilburn Corporation
1905 Business Center Drive
San Bernardino, CA 92408
Contact: Frank Amendola

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Lilburn Corporation were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 6852-4772-A809

PO # 1531

Project Sun Grown Farms, Inc

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 6852-4772-A809

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

Limited Permission To Make Copies

Lilburn Corporation (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. APPENDIX G
RESUME OF ESA REPORT PREPARER

EDUCATION

- M.B.A., Business, California Baptist University, Riverside, 2007
- B.S. Health Science; Environmental Health Concentration, California State University, San Bernardino, 2002

EXPERIENCE SUMMARY

Mr. Amendola has experience in land use planning, CEQA compliance, surface mine planning and permitting, and regulatory compliance since 2002. He has managed the environmental compliance documentation for both public and private development projects throughout southern California. Mr. Amendola has completed Phase I Environmental Site Assessments in compliance with ASTM and Federal Standards since 2002. In addition to completing ESAs for local municipalities throughout the Inland Empire, he is also experienced in the preparation of documents in compliance with the Certified Unified Program Agency (CUPA), Business Emergency/Contingency Plan, California Environmental Quality Act (CEQA), National Environmental Policy Act (NEPA), Surface Mining and Reclamation Act (SMRA), and California Clean Air Act.
