The raised rumble bars are used to attract the drivers' attention and to alert them of traffic slowdown or stoppage. Project work consists of placing raised rumble bars in nine (9) locations with the rumble bars placed across the lanes of the travel way. All work is within the state right of way and there is no staging location. Environmental commitments for biological resources, cultural resources, visual resources, air quality, hazardous waste, and NPDES/Stormwater are included in the Environmental Commitments record (ECR).
