Project Title: Line F Capacity Improvement Along International Boulevard and 44th Avenue, Oakland, Alameda County, Zone No. 12 Project.

Project Location - Specific: International Boulevard, between 42nd Avenue, and 44th Avenue, and 44th Avenue between International Boulevard and San Leandro Street, Oakland, Alameda County.

Project Location – City: Oakland **Project Location - County:** Alameda

Description of, Nature, and Purpose of Project: The project is located along Peralta Creek (Zone 12, Line F) flood control underground channel between International Blvd, 42nd Ave and 44th Ave. The project proposes to construct approximately 1,660 linear feet of 84-inch reinforced concrete pipe (RCP), including approximately 670 linear feet along International Boulevard between 42nd Avenue and 44th Avenue, and approximately 990 linear feet along 44th Avenue between International Boulevard and San Leandro Street. The project will also construct manhole structures associated with the 84-inch RCP. Nuisance flows within the storm drain system will be constrained to the existing box culvert until connections to the existing system are made during the dry season. All Best Management Practices (BMP's) would be used. The purpose of the project is to expand the existing underground culvert to increase conveyance capacity to meet the 100-year design flow.

Name of Public Agency Approving Project: Alameda County Flood Control & Water Conservation District-F12CC4

Name of Person or Agency Carrying Out Project: Alameda County Flood Control & Water Conservation District

EXEMPT STATUS (check one):

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
- ☐ Declared Emergency (Sec. 21080 (b)(3); 15269 (a));
- ☐ Emergency Project (Sec. 21080 (b)(4); 15269(b)(c));
- ☒ Categorical Exemption. Sec. 15301 Existing Facilities; Sec. 15303, Class 3: New Construction or Conversion of Small Structures.
- ☒ Statutory Exemption. Sec. 15282 (K), Section 21080.21 of the Public Resources Code.

Reasons Why Project Is Exempt: The proposed project constitutes repair, maintenance, and minor alteration to existing public facilities involving negligible expansion of use & the project consists of storm drain pipeline installation to improve existing pipeline to Alameda County Flood Control & Water Conservation District (District) storm drain infrastructure. These improvements will be located within the developed road right-of-way along International Blvd, 42nd and 44th Ave. Installation of the new pipeline and manhole structures are less than one mile of improvements and considered minor modifications within the existing road, which has been previously disturbed and developed with roadway improvements. The improvements will allow the District to more efficiently and effectively handle stormwater during rain events, thereby minimizing the potential of flooding and improving public safety.
