Project Description

Project Title: Glen Helen Parkway Grade Separation Pavement Repair (H14057)

Project Location: The project is located on Glen Helen Parkway approximately 125 feet southwest of the Union Pacific Railroad crossing in the Devore area of unincorporated San Bernardino County, California. The approximately 550-foot project area is located within the existing Glen Helen Parkway right-of-way.

Project Description: The San Bernardino County Department of Public Works proposes to repair approximately 550 feet of existing pavement along Glen Helen Parkway. Work consists of removal and replacement of the existing roadway pavement section, modification of two drainage inlets, and construction of curb and gutter. The project has a maximum width of approximately 36 feet and a maximum excavation depth of approximately 3.45 feet. Construction may use a bulldozer, wheel loader, excavator, rollers, asphalt paver, concrete breaker, jumping-jack rammer, and backhoe loader and is anticipated to take approximately 30 working days. The subject roadway segment was previously constructed as part of the Glen Helen Parkway Grade Separation Project, W.O. H14057. The existing pavement has since been damaged and requires repair. The proposed work would restore the existing roadway facility to its former position and would not add travel lanes or increase roadway capacity. The project would not remove vegetation or trees, affect a streambed or storm drain, require utility relocation, affect existing buildings, require nighttime construction lighting, or require a traffic detour. Construction access would be from Glen Helen Parkway, and the work would occur within the existing County right-of-way.

Exempt Status: (check one)

- ☐ Ministerial [Sec. 21080(B)(1); 15268];
- ☐ Declared Emergency [Sec. 21080(B)(3); 15269(a)];
- ☐ Emergency Project [Sec. 21080(B)(4); 15269(b)];
- ☒ Categorical Exemption. State type and section: Class 1, Existing Facilities, Section 15301(c)
- ☐ Statutory Exemptions. State code number:
- ☒ Other Exemption: Section 15061(b)(3), Common Sense Exemption

Reasons why project is exempt: The project qualifies under Section 15301(c), Class 1, Existing Facilities, because it involves repair of an existing County roadway with no expansion of use or capacity. Work is limited to pavement replacement, drainage inlet modifications, and curb and gutter improvements within the existing Glen Helen Parkway right-of-way. Section 15061(b)(3), the Common Sense Exemption, also applies because the work is limited to an existing developed roadway corridor and would not result in a significant environmental effect.
