Project Title: Furlong Road 2026-2027 Forest Improvement Project

Project Project Applicant: Gold Ridge Resource Conservation District

District Project Location - Specific:

930, 690 Furlong Road, Sebastopol, CA 95472

Project Location • City: Sebastopol

Project Location - County: Sonoma

Description of Nature, Purpose and Beneficiaries of Project: The project is located 5 miles west of downtown Sebastopol and will encompass approximately 16 acres of forestland across 2 properties. The purpose of the project is to reduce hazardous forestland fuels and improve forest resilience to disease and wildfire. Project area slopes are moderate (20-40 degrees). Vegetation is primarily a coast redwood alliance forest. The Project involves removing trees 1"-10" diameter at breast height to reduce the total trees per acre and improve growth of residual trees in this size class; pruning of residual trees to reduce wildfire ladder fuel load; reduction of the height of woody understory vegetation to reduce wildfire ladder fuel load and prepare site for replanting; and chipping of resulting woody material. Work will be completed using hand crews, hand tools, chainsaws and a chipper. The project will avoid impacts to sensitive resources, retain mature trees and protect riparian habitat. Notice of Exemption filed with the State of California on 10/08/2026 for 2026-2027.
