ACTIVITY/PROJECT TITLE: Trash Full Capture Projects (W14230102, W14230104)

ACTIVITY/PROJECT LOCATION: Sites 144, 151, and 157 within the North Sacramento and Woodlake Communities

CITY: Sacramento

COUNTY: Sacramento

DESCRIPTION OF ACTIVITY/PROJECT: The City of Sacramento is proposing to construct three full trash capture systems as part of the Trash Full Capture Project (project) within the greater Sacramento area to comply with the Central Valley Regional Water Board's (Water Board) requirements to prevent the discharge of trash greater than 5 mm into receiving waters through the implementation of certified Full Capture Systems. The three project sites were selected based on engineering, hydraulic, and trash capture feasibility analyses. They intend to provide full trash capture within the designated watersheds: Site 144 at the Interstate 80 (I-80) North Ditch approximately 170 feet east of the intersection of Phillipi Way and Rio Linda Boulevard, Site 151 located approximately 150 feet west of Exposition Parkway south of Slobe Avenue, and Site 157 at the I-80 South Ditch approximately 700 feet east of Western Avenue. The site improvements consist of the installation of a Water Board certified, manufacturer-prefabricated trash capture system at existing concrete lined stormwater channels.
