NOTICE OF EXEMPTION

To: Assessor/Recorder/County Clerk
Attn: Fish and Wildlife Notices
1600 Pacific Highway, Suite 260
San Diego CA 92101
MS: A-33

From: **CITY OF CARLSBAD**
Planning Division
1635 Faraday Avenue
Carlsbad, CA 92008
(442) 339-2600

Subject: Filing of this Notice of Exemption is in compliance with Section 21152b of the Public Resources Code (California Environmental Quality Act).

Project Number and Title: CDP 2025-0005 (DEV2024-0053) – LOVE SHACK

Project Location - Specific: 4080 Skyline Road

Project Location - City: Carlsbad **Project Location - County:** San Diego

Description of Project: Demolish an existing, single-story, single-family residence (approximately 2,100 square feet) and the construction of a 9,094-square-foot two-story single-family residence with attached 2,017-square foot garage. Exterior improvements include a driveway, pool and spa, and two sport courts with accessory shade structure.

Name of Public Agency Approving Project: City of Carlsbad

Name of Person or Agency Carrying Out Project: HECTOR ARAMBURO, CHRISTIAN RICE ARCHITECTS

Name of Applicant: HECTOR ARAMBURO, CHRISTIAN RICE ARCHITECTS

Applicant's Address: 1127 LOMA AVENUE, CORONADO, CA 92118

Applicant's Telephone Number: 619.522.9040

Name of Applicant/Identity of person undertaking the project (if different from the applicant above):

Exempt Status: (*Check One*)

- ☐ Ministerial (Section 21080(b)(1); 15268);
- ☐ Declared Emergency (Section 21080(b)(3); 15269(a));
- ☐ Emergency Project (Section 21080(b)(4); 15269 (b)(c));
- ☒ Categorical Exemption - State type and section number: New Construction or Conversion of Small Structures – Section 15303
- ☐ Statutory Exemptions - State code number:
- ☐ Common Sense Exemption (Section 15061(b)(3))

Reasons why project is exempt: CEQA Section 15303 allows for the construction of a single-family residence, including accessory (appurtenant) structures such as garages, carports, patios, swimming pools and fences. The project development consists of a single-family residence, with accessory (appurtenant) structures.

Exceptions to Exemptions

CEQA Section 15300.2 – Exceptions

Planning staff evaluated all the potential exceptions to the use of Categorical Exemptions for the proposed project (in accordance with CEQA Guidelines Section 15300.2) and determined that none of these exceptions apply as explained below:

a. **Location**. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located - a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply in all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

   Response – The project location is not considered to be a particularly sensitive environment due to the following reasons:

   The site is not located within an Existing or Proposed Hardline Conservation Area or Standards Area of the Habitat Management Plan and the project site is currently developed. Therefore, the project will not have an impact on an environmental resource of hazardous or critical concern.

b. **Cumulative Impact** - "All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant."

   Response – There is no evidence to conclude that significant impacts will occur based on past project approvals or that the proposed Project's impacts are cumulatively considerable when evaluating any cumulative impacts associated with construction air quality, noise, transportation, or water quality in the area surrounding the proposed Project. The Project, and all future projects, will be required to comply with all applicable local, regional, and state laws, regulations, and guidelines, and as described above, any potential impact cause by the Project's construction and operation would continue to be less than significant and would not contribute significantly to regional cumulative impact in the broader project region. Therefore, this exception does not apply.

c. **Significant Effect** - "A categorical exemption shall not be used for any activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances."

   Response – There are no unusual circumstances that would have a significant impact on the environment due to the Project. Regarding biological resources, the Project is not located within an existing or proposed Hardline Conservation Areas or Standards Areas of the Habitat Management Plan.

d. **Scenic Highway** - "A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR."

   Response – The area of proposed development is not located within the view shed of a state scenic highway or any state highway that is designated as eligible for listing as a scenic highway. The project site is surrounded entirely by existing residential structures. Therefore, implementation of the Project

will result in similar visual conditions compared with a no-project scenario.

e. **Hazardous Waste Site** - "A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code."

Response – The project site is not listed on the California Department of Toxic Substances Control (DTSC) Hazardous Waste and Substance Site (CORTESE) List.

f. **Historical Resources** - "A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource."

Response – A Historic Structure Assessment, dated April 25, 2025, was prepared by BFSA Environmental Services to determine if the Project would impact any historical resources pursuant to CEQA (Exhibit 1). The report concluded that the structure on the Project site is not listed or eligible to be listed in any national, state, or local landmark or historic district programs. As such, development of the Project would not cause a substantial adverse change in the significance of a historical resource, and this exception does not apply.

Carlsbad Municipal Code Section 19.04.070(B) - Exceptions

Exceptions. Even though a project may otherwise be eligible for an exemption, no exemption shall apply in the following circumstances:

1. Grading and clearing activities affecting sensitive plant or animal habitats, which disturb, fragment or remove such areas as defined by either the California Endangered Species Act (Fish and Game Code Sections 2050 et seq.), or the Federal Endangered Species Act (16 U.S.C. Section 15131 et seq.); sensitive, rare, candidate species of special concern; endangered or threatened biological species or their habitat (specifically including sage scrub habitat for the California Gnatcatcher); or archaeological or cultural resources from either historic or prehistoric periods;

   Or

2. Parcel maps, plot plans and all discretionary development projects otherwise exempt but which affect sensitive, threatened, or endangered biological species or their habitat (as defined above), archaeological or cultural resources from either historic or prehistoric periods, wetlands, stream courses designated on U.S. Geological Survey maps, hazardous materials, unstable soils, or other factors requiring special review, on all or a portion of the site. (Ord. NS-593, 2001)

   Response – The Project site is in a developed part of the city and is surrounded by residential uses. The Project site contains an existing building, and although there are some native plants onsite, based on the overall disturbance of the site, prevalence of non-natives, and the fact that the site is surrounded by development, the site does not constitute "habitat". Furthermore, the site is not within mapped areas of potential critical habitat as depicted in the City's General Plan[1].

   A Historic Structure Assessment, dated April 25, 2025, was prepared by BFSA Environmental Services concluded that the structure on the Project site is not listed or eligible to be listed in any national, state, or local landmark or historic district programs. Furthermore, the likelihood that intact archaeological or cultural resources exist on the Project site is low due to previous site disturbance. Nonetheless, the Project will be required to comply with standard City regulatory procedures outlined

[1] City of Carlsbad. 2015 City of Carlsbad General Plan – Open Space, Conservation, and Recreation Element. Adopted September 2015. https://www.carlsbadca.gov/home/showpublisheddocument/3424/637434861099030000

in the Carlsbad Tribal, Cultural, and Paleontological Resources Guidelines (City of Carlsbad 2017) including conditions requiring archaeological monitoring of ground-disturbing activities during Project construction. Therefore, earth-moving activities associated with the Project would not affect archaeological or cultural resources from either historic or prehistoric periods.

Hazardous materials, unstable soils or other factors requiring special review do not apply or are not found within this project location.
