Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Irvine Business Complex (IBC) Multi-Use Trail Barranca Segment Project

Lead Agency: City of Irvine

Contact Name: Amir Ainechi

Email: AAinechi@cityofirvine.org Phone Number: 949-724-7370

Project Location: Irvine (*City*) Orange (*County*)

Project Description (Proposed actions, location, and/or consequences).

The proposed trail would total approximately 0.36 miles of an off-street paved Class I shared-use path. The proposed trail would include a two-foot wide paved shoulder nearest to the Barranca Channel, an eight-foot wide paved path for pedestrians and cyclists, and an additional three-foot wide paved shoulder opposite the Barranca Channel. The proposed trail would include a pedestrian bridge over Jamboree Road for pedestrian and bicyclist safety. The pedestrian overcrossing for the proposed trail would be comprised of retaining walls, a concrete slab bridge supported by CIDH pile foundation, and a prefabricated truss bridge with chain link fence.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources:
Mitigation measure BIO-1 would be implemented to avoid and/or minimize any potential impacts on nesting birds.
Cultural Resources:
With implementation of Measure CUL-1, potential impacts on unknown archaeological resources that may underlie the project site would be reduced. Measure CUL-2 would be implemented in the event that historic or precontact archaeological resources are unearthed. Measure CUL-3 would ensure a qualified archaeologist prepares a final report is prepared at the conclusion of archaeological monitoring. CUL-4 will be implemented if human remian are encoutnered unexpectedly during implementation of the Project.
Geology:
Measure GEO-1 would be incorporated for potential impacts on paleontological resources.
Tribal Cultural Resources:
Measures TCR-1, TCR-2, and TCR-3 would be implemented to minimize potential impacts to tribal cultural resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not Applicable.

Provide a list of the responsible or trustee agencies for the project.

Not Applicable.
