

CEQA Local Review Memo

Date: October 19, 2026

To: Office of Land Use & Climate Innovation – State Clearinghouse

From: Kevin P. Carr, MS., CEQA Administrator

The City of Jurupa Valley Project MA24229, was originally published locally for 20-days in the Press Enterprise Newspaper Legal Advertisements, the Riverside County Clerk's Office, and notification mailed or emailed to all parties requesting CEQA Notifications from the City from October 8, 2026, to end on October 28, 2026.

Following the CEQA Guidelines Sections 15105 and 15205, as well as the SCH guidance on the FAQ page the NOI, MND, and supporting documents were not forwarded to the SCH as the project did not include a state agency as a responsible agency, trustee agency, or otherwise has jurisdiction by law with respect to the project, and was not of statewide, regional, or areawide significance.

However, during a recent review to update the City's CEQA Guidelines it was determined that AB819 made changes to the Public Resources Code (PRC) Section 21091(a) and (b) that have not been reflected in the CEQA Guidelines that requires all MNDs to be submitted to the SCH.

As the Project is does not meet the criteria for a 30-day public review period and has been available since October 8, 2026, for public review the City's CEQA Administrator, City Attorney's Office, and Planning Manager determined that the Project only requires a 20-day local review period on the SCH Website.

Please feel free to contact me if you require further clarification.

Respectfully,

Kevin Carr
