Reasons why project is exempt: CEQA Guidelines section 15301(c), Class 1 applies to operation, repair, maintenance, or minor alteration of existing facilities involving negligible or no expansion of existing or former use. Subsection (c) identifies existing streets and similar facilities. The proposed equipment and communications upgrades modify existing traffic control facilities and their supporting systems. With no new automobile lanes, no roadway capacity increase, and physical work confined to existing disturbed areas, the described project involves negligible or no expansion of existing use.
