# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Nevada County Animal Shelter

Lead Agency: County of Nevada

Contact Name: Aleena Church

Email: aleena.church-cda@nevadacountyca.gov Phone Number: (530) 401- 6246

Project Location: Grass Valley, County of Nevada
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The County of Nevada proposes to construct and operate a new Nevada County Animal Shelter at 12270 La Barr Meadows Road, Grass Valley, California, on Assessor's Parcel Number (APN) 022-160-038-000. The approximately 20.22-acre County-owned parcel is located along the west side of La Barr Meadows Road. The proposed animal shelter improvements would occupy approximately 2.92 acres (127,580 square feet) within the northeastern portion of the parcel. The project would construct a new animal shelter facility to accommodate the animal housing, adoption, intake, administrative, and clinical needs of Nevada County Animal Services. The proposed site plan identifies approximately 14,819 square feet of conditioned building area, an approximately 1,032-square-foot unconditioned sallyport, and a separate approximately 1,000-square-foot barn associated with the large-animal component of the facility. The project would also include approximately 59,332 square feet of surfaced area associated with parking, access, walkways, and other site improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Mitigated Negative Declaration (MND) prepared for the proposed project identified potentially significant impacts related to the following environmental issue areas: biological resources, cultural resources, noise, tribal cultural resources, and utilities/service systems.
The environmental issue areas in which the MND identified feasible mitigation measures to reduce the potentially significant impact to a less-than-significant level include the following: aesthetics, biological resources, cultural resources, geology and soils, hydrology and water quality, noise, transportation, and tribal cultural resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
