Project Title: CVIN MMBN SR 26 Project 10-25-6-BB-0532

Project Location - Specific: State Route 26 from Post Mile 1.10 to Post Mile 3.643

Project Location - County: San Joaquin

Description of Nature, Purpose, and Beneficiaries of Project:

The project would replace broadband fiber in existing conduit and replace vaults along State Route 26 from post mile 1.10 to 3.643 in San Joaquin County.

Purpose: This Middle-Mile Broadband Network project will install the broadband infrastructure along the State Highway System (SHS) necessary to connect to a third-party operated Last Mile Broadband Network which will bring internet connectivity to homes, businesses, and community institutions.

Need: In July 2021, California Governor Gavin Newsom signed into law Senate Bill (SB) 156 to create an open-access middle-mile network to bring high-speed broadband service to all Californians.

The lack of available middle-mile broadband infrastructure has been a major issue in connecting California's communities. The statewide open-access middle-mile network included in SB 156 is a foundational investment to ensure every Californian has access to broadband Internet service that meets the connectivity needs of today, and well into the future. This project intends to support providing critical statewide broadband infrastructure to enhance access.
