Project No. 2502-0891

California Resources Production Corporation (CRPC)
9600 Ming Avenue
Bakersfield, California 93311

Attention: Gulsum Rustemoglu, Senior Environmental Advisor

Subject: Cultural Resource Records Search Summary, Rio Vista Well Development Project, Solano, Sacramento, and Contra Costa Counties, California

Dear Ms. Rustemoglu:

Padre Associates (Padre) has completed a cultural resource records search in support of the Rio Vista Well Development Project (Project) located within the Rio Vista Gas Field in Solano, Sacramento, and Contra Costa Counties, California (Project site). This letter report summarizes a cultural resource records search, and a Sacred Lands File search conducted on behalf of the Project, and provides recommendations regarding potential impacts to cultural resources. Based on the record search findings, a physical site survey has not been conducted at this time.

PROJECT DESCRIPTION AND LOCATION

The proposed Project is the construction of 83 natural gas wells within the Rio Vista Gas Field split between three counties: 39 wells in Solano County, 32 wells in Sacramento County, and 12 wells in Contra Costa County. Associated infrastructure such as access roadways, transmission pipelines, and electrical lines for the new wells would also be installed and tied into the existing network with the Rio Vista Gas Field. In addition, upgrades to portions of the existing gas pipeline network may be necessary to accommodate the new gas well connections.

The proposed Solano County wells are located in the eastern Montezuma Hills, west and southwest of the city of Rio Vista; the proposed Sacramento County wells are located on Brannan, Twitchell, and Sherman Islands between the Sacramento and San Joaquin Rivers; and the proposed Contra Costa wells are located on Bradford Island south of the San Joaquin River.

RECORDS SEARCH METHODOLOGY AND RESULTS

Padre ordered records searches from the Northwest Information Center (NWIC) at Sonoma State University on April 16, 2024, January 23, 2025, and on March 6, 2025, and from the North Central Information Center (NCIC) at California State University, Sacramento on April 16, 2024, and on March 6, 2025. These centers are affiliates of the California Historical Resources Information System (CHRIS), and the official repository of cultural resource records and reports for 24 counties, including Solano, Sacramento, and Contra Costa Counties that encompass the Project sites.

The records search included a review of all recorded historic-era and prehistoric archaeological sites within a 0.5-mile radius of the Project site as well as a review of known cultural resource surveys and technical reports. The State Historic Property Data Files, National Register of Historic Places, National Register of Determined Eligible Properties, California Points of Historic Interest, and the California Office of Historic Preservation Archaeological Determinations of Eligibility also were analyzed.

Previously Recorded Cultural Resources

The records search revealed that portions of the Project site overlap with the Sacramento River Tribal Cultural Landscape (P-34-005225), the Bradford Island Levee (P-07-004989), the Twitchell Island Levee (P-07-000493), and the Sherman Island Levee (P-07-000553). Additionally, one historic benchmark was recorded within a 0.5-mile radius of the Project site. These resources are listed and described in Table 1.

Table 1. Summary of Previously Recorded Cultural Resources within the Project Site and Buffer

Primary Site No.	Trinomial No.	Description	Location (s)
P-07-004989	**-**	**Bradford Island Levee (Contra Costa County)**	**6-inch Bradford Island Replacement Pipeline; Proposed Existing Access Road to Well Pad CC-1**
P-34-000493	**CA-SAC-466H**	**Twitchell Island Levee (Sacramento County)**	**Proposed Existing Access Road to Well Pads SAC-TW-2 and SAC-TW-3**
P-34-000553	**CA-SAC-496H**	**Sherman Island Levee (Sacramento County)**	**6-inch Bradford Island Replacement Pipeline;**
P-34-005225	**-**	**Sacramento River Tribal Cultural Landscape (Sacramento and Solano counties)**	**Well Pads SOL-4, SOL-5, SOL-6, SOL-7, SAC-BR-1, SAC-BR-2, SAC-BR-3, SAC-BR-4, SAC-BR-5, SAC-BR-6, SAC-TW-1, ALT-3, ALT-4 and associated pipelines and access roads**
P-48-000800	-	Historic Benchmark (Solano County)	0.32 miles east of Well Pad SOL-2

Sources: NWIC 2024, 2025; NCIC 2024, 2025
Note: Resources that are bold overlap with the proposed Project sites

Bradford Island Levee. A portion of the 6-inch Bradford Island Replacement Pipeline and proposed existing access roads to Well Pad CC-1 overlap with the Bradford Island Levee (P-07-004989), which was initially recorded in 2014 (Diez, 2014). This resource has not been formally evaluated; thus, it is considered eligible for listing in the CRHR.

Twitchell Island Levee. The proposed existing access roads for Well Pads SAC-TW-2 and SAC-TW-3 overlaps with the Twitchell Island Levee, which was initially recorded as P-34-000493 (CA-SAC-466H) in 1996 (Orlins, 1996). Although only a 100-foot segment of the levee was documented, the site record states that the levee is over two miles long and topographic

maps dating to the mid-1950s show the levee bordering all of Twitchell Island. This resource has not been formally evaluated; thus, it is considered eligible for listing in the CRHR.

Sherman Island Levee. A portion of the 6-inch Bradford Island Replacement Pipeline overlaps with the Sherman Island Levee, which was initially recorded as P-34-000553 (CA-SAC-496H) in 1997 (Orlins, 1997). In 2006, JRP Historical Consulting recorded and evaluated the 20-mile levee system and recommended the resource not eligible for listing on the NRHP or CRHR due to lack of significance and integrity (Toffelmier, 2006).

Sacramento River Tribal Cultural Landscape. Of the 18 well pads proposed for the Project, 11 well pads and the associated pipelines and access roads are located in the Sacramento River Tribal Cultural Landscape. This tribal cultural resource has been delineated as a 55-mile-long corridor of the Lower Sacramento River, from the confluence with the Mokelumne River at Collinsville north to the confluence with the Feather River at Verona. Tremaine initially recorded and evaluated the resource in 2018 and recommended the landscape eligible for listing in the NRHP and CRHR. The tribal cultural resource is a culturally significant natural landscape for its association with the cultural practices and beliefs of the Nisenan and Plains Miwok, maintaining the continuing cultural identity of the living descendants, and contributing to the broader patterns of prehistory. Local tribes regard this landscape as an area of tribal importance because of its association with events (traditional stories) such as how fire was acquired and how salmon received its color. The tule and tule habitat (*yakin*) are also cited as important because the plant is used to create traditional structures, clothing, and watercraft (Tremaine, 2018).

Historic Benchmark. A historic-aged benchmark was recorded in 2006 approximately 0.32 miles east of the SOL-2 Well Pad. This resource is an isolate and not considered eligible for listing in the CRHR (Ahmet and Bholat, 2006).

Previous Cultural Resource Studies

The records search also revealed that 23 cultural resource studies have been completed within the 0.5-mile search radius. Of these, eight studies cover portions of the Project site, which are listed and described in Table 2.

Table 2. Previous Cultural Resource Studies Completed Within the Project Site

Report No.	Author(s), Year	Title
S-5055	Seldomridge and Smith-Madsen, 1976	Cultural Resources Reconnaissance: Sacramento River Derp Water Ship Channel (Collinsville to Sacramento County)

SACRED LANDS FILE SEARCH RESULTS

Padre emailed requests for a Sacred Lands File search to the Native American Heritage Commission (NAHC) on March 6 and 11, 2025, to request information about sacred or traditional cultural properties that may be located within the Project site. Padre received responses from the NAHC on March 11 and 13, 2025 that was negative. The NAHC response is attached to this report. Pursuant to Public Resources Code (PRC) § 21080.3.1, the California Geologic Energy Management Division (CalGEM), as the CEQA Lead Agency, will be responsible for the required Native American consultation.

BURIED SITE SENSITIVITY ASSESSMENT

Padre also reviewed buried site sensitivity analyses completed for previous projects on the east and west sides of the Sacramento River (Thomas, 2013; Elliot, 2015). Historically, the Project site was a swampy portion of the Sacramento-San Joaquin Delta and did not represent a formerly stable land surface that would have been available for prehistoric human occupation. In the late-1920s, the swamp was covered by 20 to 40 feet of sediments dredged from the Sacramento River (Thomas, 2013). Additionally, the proximity of the Project site to the river channel, the low elevation, and the absence of soil development suggests a low sensitivity for buried cultural resources (Elliott, 2015). Thus, the potential to encounter buried cultural resources is low.

CONCLUSIONS AND RECOMMENDATIONS

The records search revealed that portions of the Project site overlap with the Sacramento River Tribal Cultural Landscape (P-34-005225), the Bradford Island Levee (P-07-004989), the Twitchell Island Levee (P-07-000493), and the Sherman Island Levee (P-07-000553). Of these resources, the Sacramento River Tribal Cultural Landscape has been formally evaluated and

recommended eligible for listing in the California Register of Historic Resources (CRHR), and the Sherman Island Levee has been formally evaluated and recommended not eligible for listing in the CRHR. The Twitchell Island and Bradford Island levees have not been formally evaluated; thus, they are considered eligible for listing in the CRHR.

Specifically, the proposed Project includes approximately 30 acres (less than 0.1 percent) within the 333,592-acre Sacramento River Tribal Cultural Landscape. Additionally, the Project would have the potential to impact approximately 50 square feet of the Bradford Island Levee (eligible for CRHR listing) and approximately 164 square feet of the Sherman Island Levee (recommended as not eligible for CRHR listing). Finally, proposed access routes will overlap with the Bradford Island Levee and the Twitchell Island Levee (both eligible for CRHR listing); however, since no road improvements to the levees are proposed, impacts are not anticipated.

The proposed Project site within the Sacramento River Tribal Cultural Landscape represents less than 0.1 percent of the overall cultural landscape; therefore, the Project will not impact the resource's ability to communicate its significance. The portions of the proposed Project that overlap with the Bradford Island Levee, Sherman Island Levee, and the Twitchell Island Levee have been previously disturbed by road and levee maintenance; thus, the Project will not cause any new impacts nor alter the current condition of these resources. The buried site sensitivity analyses reviewed for the Project indicate a low potential for buried cultural resources within the Project site.

Based on the information obtained during the desktop review, proposed Project impacts are not anticipated to affect cultural resources and no further archaeological study or monitoring during Project activities is recommended at this time. However, any change in scope (i.e., an increased area of disturbance beyond the Project site), would require additional cultural resources studies to determine consistency with these findings.

The Project will not impact a historical resource as defined by CEQA and can proceed as planned. In the unanticipated event that cultural material(s) are encountered during ground-disturbing activities at the Project site, all work will be stopped within a 100-feet radius of the find and a qualified archaeologist will be summoned to the Project site to evaluate the significance of the material(s) in question. Work may resume once the find has been evaluated, and any necessary action is taken to appropriately address the material encountered.

CLOSING

If you should have any questions regarding the information presented and/or require additional information, please contact Rachael Letter at (805) 245-2650 or rletter@padreinc.com.

Sincerely,

Padre Associates

Re: Rio Vista 84 Well Development Project, Sacramento County

To Whom It May Concern:

As requested, a record search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed based on information submitted for the above referenced project. The results were negative. Please note that tribes do not always record their sacred sites in the SLF, nor are they required to do so. As such, a SLF search is not a substitute for consultation with all tribes that are traditionally and culturally affiliated with a project's geographic area.

Attached is a list of Native American tribes who may also have knowledge of cultural resources in the project area. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. Please contact all of those listed; if they cannot supply information, they may recommend others with specific knowledge. If within two weeks of notification, a response has not been received, the Commission requests that you follow-up with a telephone call or email to ensure that the project information was received.

If you receive notification of a change of address or phone number from a tribe, please notify the NAHC so that we can assure that our lists contain current information.

In addition to engaging in tribal consultation, you should consult the appropriate regional California Historical Research Information System (CHRIS) archaeological Information Center to determine whether it has information regarding the presence of recorded archaeological sites within the project area.

If you have any questions or need additional information, please contact me at my email address: Pricilla.Torres-Fuentes@nahc.ca.gov.

Sincerely,

Pricilla Torres-Fuentes

Re: Rio Vista 84 Well Development Project, Contra Costa County

To Whom It May Concern:

A record search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) was completed for the information you have submitted for the above referenced project. The results were negative. However, the absence of specific site information in the SLF does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Attached is a list of Native American tribes who may also have knowledge of cultural resources in the project area. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated; if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call or email to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from tribes, please notify me. With your assistance, we can assure that our lists contain current information.

If you have any questions or need additional information, please contact me at Mathew.lin@nahc.ca.gov.

Sincerely,

Mathew Lin
