Project Description (Proposed actions, location, and/or consequences).

Allow the construction and operation of a new 6,069-square-foot Fire Station No. 95 to replace the existing fire station on a 1.51-acre parcel in the AL-20 (Limited Agricultural, 20-acre minimum parcel size) Zone District. The project includes a three-bay fire station and associated site improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The evaluation determined that the project will result in No Impacts to: Agricultural and Forestry Resources, Mineral Resources, Population and Housing, Public Services, Recreation.

Potential impacts related to Aesthetics, Air Quality, Biological Resources, Energy, Geology and Soils, Greenhouse Gas Emissions, Hazards and Hazardous Materials, Hydrology and Water Quality, Land Use and Planning, Noise, Transportation, Utilities and Service Systems, and Wildfire were evaluated and determined to be Less Than Significant without requiring project-specific mitigation measures. Standard regulatory conditions of approval will be applied to the project where applicable to ensure compliance with local and state standards.

Potential impacts related to Cultural Resources, Tribal Cultural Resources, and Mandatory Findings of Significance were evaluated and determined to be Less Than Significant with Mitigation Incorporated. A Mitigation Measure has been included to address the potential inadvertent discovery of cultural or tribal cultural resources during project-related ground-disturbing activities.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy were identified by reviewing Agencies, Departments, or the public.

Provide a list of the responsible or trustee agencies for the project.
