# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Benevento Family Park Project

Lead Agency: City of Folsom Parks and Recreation Department

Contact Name: Brad Nelson

Email: bnelson@folsom.ca.us Phone Number: (916) 461-6633

Project Location: City of Folsom, Sacramento County

*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project site is located at 421 Carpenter Hill Road, immediately southwest of the intersection of Broadstone Parkway and Carpenter Hill Road, adjacent to the west of Vista Del Lago High School in the City of Folsom, Sacramento County, California. The project site would be located on portions of two parcels identified as Assessor's Parcel Number (APN) 072-1170-149 and -152. The two parcels total approximately 19.25 acres; however, the project site and park components would encompass approximately 9.8 acres.

The proposed project would include the construction of an approximately 9.8-acre park with both active and passive recreational elements, a floating dock in the approximately two-acre pond, as well as two parking lots with a total of 87 parking spaces. The project would include various picnic and covered seating areas, a tot lot, playground, lighted sports fields and courts (two sand volleyball courts, four pickleball courts, one basketball court, and multi-use field), several small unprogrammed lawn/green spaces, Americans with Disabilities Act (ADA)-compliant sidewalks and pathways, maintenance/access paths, and a building with a two-stall restroom and electrical/maintenance storage and facilities.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The mitigation measures listed below were identified to reduce potentially significant impacts to a level of less than significant for the following environmental issue areas: Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Noise, and Recreation.

Mitigation Measure AQ-1: Basic Construction Emissions Control Practices
Mitigation Measure BIO-1: Worker Environmental Awareness Training
Mitigation Measure BIO-2: Avoid and Minimize Impacts to Crotch's Bumble Bee
Mitigation Measure BIO-3: Avoid and Minimize Impacts to Northwestern Pond Turtle
Mitigation Measure BIO-4: Conduct Pre-Construction Burrowing Owl Surveys
Mitigation Measure BIO-5: Conduct Pre-Construction Surveys for other Nesting Migratory Birds and Raptors
Mitigation Measure BIO-6: Avoid Impacts to Aquatic Resources
Mitigation Measure CUL-1: Worker Environmental Awareness Training
Mitigation Measure CUL-2: Archaeological Monitoring Program
Mitigation Measure CUL-3: Inadvertent Discovery of Archaeological Resources
Mitigation Measure CUL-4: Inadvertent Discovery of Human Remains
Mitigation Measure GEO-1: Avoid and Minimize Impacts to Paleontological Resources
Mitigation Measure NOI-1: Construction Noise Reduction Measures

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
