Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: East Valley Water District Well No. 152

Lead Agency: East Valley Water District

Contact Name: Jason Marseilles

Email: jmarseilles@eastvalleywater.gov Phone Number: (909) 806-4088

Project Location: Highland (*City*) San Bernardino County (*County*)

Project Description (Proposed actions, location, and/or consequences).

See Attachment.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Initial Study evaluated potential environmental impacts to aesthetics, agricultural and forestry resources, air quality, biological resources, cultural resources, energy, geology and soils, greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use and planning, mineral resources, noise, population and housing, public services, recreation, transportation/traffic, tribal cultural resources, utilities and service systems and wildfire. Of all potential effects evaluated, impacts in the areas of biological resources, cultural resources, geology and soils, hydrology and water quality, and tribal cultural resources identified, but will be reduced to a less than significant levels with implementation of mitigation measures MM BIO-1, MM BIO-2, MM BIO-3, MM BIO-4, MM BIO-5, MM BIO-6, MM BIO-7, MM CR-1, MM CR-2, MM CR-3, MM GEO-1, MM HYD-1, MM HYD-2, MM TCR-1, and MM TCR-2.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None identified.

Provide a list of the responsible or trustee agencies for the project.

- California State Water Resource Control Board Division of Drinking Water
- California Department of Fish and Wildlife
- California Department of Water Resources
- San Bernardino County Department of Public Health
- Regional Water Quality Control Board - Santa Ana Region
- South Coast Air Quality Management District
- City of Highland

SUMMARY FORM SUBMITTAL ATTACHMENT (East Valley Water District Well No. 152 Project)

Project Description:
EVWD proposes the drilling, construction, operation, and maintenance of a new potable groundwater supply well to replace production lost due to decommissioning existing wells.

The site would include the following features: a new wellhead; an approximately 900-square-foot split-face Concrete Masonry Unit well building with a maximum height of 18 feet; an approximately 200-square-foot chemical building containing separate rooms for chlorine and orthophosphate storage tanks; a 58,000-gallon above-ground water storage tank measuring approximately 25 feet in diameter and 18 feet tall; an approximately 400-square-foot booster station equipped with two 125-horsepower electric pumps; an approximately 350-kilowatt pad-mounted standby diesel generator; and new connections to existing storm drain system and potable water pipelines. The District anticipates that the new well would be drilled to a depth of approximately 800 feet below ground surface with a maximum 42-inch-diameter casing. The well would be equipped with an electric motor and designed to produce approximately 2,000 gallons per minute of potable groundwater.
