Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: CITY OF MT. SHASTA STORMWATER MANAGEMENT IMPROVEMENT PROJECT

Lead Agency: City of Mt. Shasta

Contact Name: Kim Fowler

Email: kfowler@mtshastaca.gov Phone Number: (530) 408-9258

Project Location: City of Mt. Shasta, CA Siskiyou County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Mt. Shasta Stormwater Management Improvement Project would replace and upgrade aging storm drainage infrastructure throughout the City to improve system capacity and reduce roadway flooding during major storm events. Key improvements include construction of a new storm drain system along McCloud Avenue that would divert high flows from Cold Creek into underground facilities located within public rights-of-way, eliminating reliance on undersized and deteriorated drainage facilities beneath private properties. Additional work includes relocating and upgrading storm drainage infrastructure along Smith Street and extending storm drain improvements to better manage local runoff. The project also includes widening South Washington Drive and installing new roadways, drainage, curb, gutter, and sidewalk improvements, with the City serving as the CEQA lead agency

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project is anticipated to have a less than significant impacts on biological resources, cultural resources, and geology/soils with mitigation measures incorporated. Mitigation includes the following:

Biological Resources
Avoidance and Minimization Measures BIO-1 through BIO-7. Mitigation Measures BIO-8 through BIO-10.

Cultural Resources
Mitigation Measures CUL-1 and CUL-2.

Geology/Soils
Mitigation Measure GEO-1

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

CEQA-Responsible Agencies

Regional Water Quality Control Board
California Department of Fish and Wildlife
