SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 2018122049

Project Title: Jet Yang 231 Cannonball Lane Crossing Upgrade (Lake or Streambed Alteration Agreement No. EPIMS-TRI-44124-R1)

Project Location (Trinity County): The project is located on Wilson Creek a tributary to Hayfork Creek, in Hayfork at 231 Cannonball Road an unincorporated area of Trinity County, California; Latitude 40.413424, Longitude -123.056447; section 36, Township 30N, Range 11W, Mount Diablo Base and Meridian; in the Wildwood U.S. Geological Survey (USGS) 7.5-minute quadrangle; Assessor's Parcel Number 019-690-004-000.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement (EPIMS-TRI-44124-R1), pursuant to Fish and Game Code section 1602, to the project Applicant, Jet Yang.

The project consists of the installation of a stream crossing on Cannonball Lane over Wilson Creek to access cannabis cultivation sites. Currently, vehicles ford (i.e. drive through) Wilson Creek to access properties on the east side of Cannonball Lane. The proposed crossing would prevent vehicles from driving through the creek and allow for fish passage. The proposed crossing will be designed by a California licensed engineer and will meet CDFW fish passage criteria. The design specifics of the proposed crossing will be determined by final engineered design plans, which must be submitted by April 30, 2026, prior to installation of the crossing structure. If water is present in Wilson Creek prior to construction, a dewatering plan will be submitted for review and approval. Following completion of construction, all disturbed areas will be stabilized with proper erosion and sediment control materials.

This is to advise that CDFW, acting as a Responsible Agency, approved the project described above on June 4, 2025 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project **will not** have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures **were** made a condition of CDFW's approval of the project.
4. A Mitigation Reporting or Monitoring Plan **was** adopted by CDFW for this project.
5. A Statement of Overriding Considerations **was not** adopted by CDFW for this project.
6. Findings **were** made by CDFW pursuant to California Code of Regulations section 15091.

The Final EIR prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as a Responsible Agency is available at CDFW's regional office.
