December 31, 2024, Trinity Valley Consulting Engineers Hydraulic and Drainage Report. Vegetation removal will be kept to the minimum necessary to complete construction work. Straw and seed will be applied to areas denuded of vegetation to stabilize exposed soils. Yearly maintenance will consist of removal of debris and sediment to maintain flow capacity of the culvert.

This is to advise that CDFW, acting as a Responsible Agency, approved the project described above on November 12, 2025 and has made the following determinations regarding the project pursuant to Section 15096, subdivision (i) of the California Code of Regulations:

1. The project **will not** have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures **were** made a condition of CDFW's approval of the project.
4. A Mitigation Reporting or Monitoring Plan **was** adopted by CDFW for this project.
5. A Statement of Overriding Considerations **was not** adopted by CDFW for this project.
6. Findings **were** made by CDFW pursuant to California Code of Regulations section 15091.

The Final EIR prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as a Responsible Agency is available at CDFW's regional office.
