Project Title: City of Elk Grove Climate Compass Project

Lead Agency: City of Elk Grove

Contact Name: Carrie Whitlock

Email: cwhitlock@elkgrove.gov

Phone Number: (916) 478-2238

Project Location: Elk Grove

Sacramento

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The Climate Compass is a comprehensive update to the City of Elk Grove's current Climate Action Plan (CAP), adopted in 2019. The Climate Compass establishes a roadmap for the City of Elk Grove to achieve its greenhouse gas (GHG) emission reduction targets and includes actions and strategies to adapt to anticipated climate-related impacts. In addition, the Climate Compass aligns local efforts with Assembly Bill 1279 (2021-22 Legislative Session), which requires California to achieve net-zero GHG emissions and an 85 percent reduction in anthropogenic GHG emissions by 2045.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Draft Supplemental Environmental Impact Report has not identified any environmental issue areas as having potentially significant environmental impacts from implementation of the Climate Compass.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The areas of controversy associated with the Climate Compass are the level of detail required for the Plan's strategies and actions, and the use of the Plan for streamlining the GHG emissions analysis of future projects.

Provide a list of the responsible or trustee agencies for the project.

Sacramento Metropolitan Air Quality Management District

Sacramento Area Sewer District

Sacramento Municipal Utility District

Sacramento County Water Agency

Elk Grove Water District

Cosumnes Community Services District

Elk Grove Unified School District
