Project Description: (please use a separate page if necessary)

The proposed project consists of a development improvement program for the UC Davis Weill School of Veterinary Medicine (WSVM) within the Health Sciences District as defined in the 2018 Long Range Development Plan to be implemented over approximately the next 10 years. The proposed project includes various near- and long-term projects that consist of the development of new facilities and utility and transportation improvements and connections, renovation, demolition, and/or relocation of existing buildings. Phasing of the projects proposed under the proposed project would be based on progress of conceptual design, secured funding, and reliance on other proposed WSVM Development Plan projects.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
