Project Change Title: Folsom South of U.S. 50 Specific Plan Project – 2020 Water Transfer

Project Applicant: _____

Project Change Location (include county): Sacramento, Alameda, Contra Costa, Kern, Kings, Los Angeles, San Joaquin, Tulare (see the attached map)

Project Change Description:

The City is modifying the project to implement a 5,000-acre-foot 2020 water transfer that involves conserved water dedicated for the Folsom South of U.S. 50 Specific Plan, but that is not necessary for use in that plan area in 2020. The transfer also involves water that the City has made available through an agreement with Aerojet-General Corporation (Aerojet), which uses remediated groundwater rather than the City's raw American River water to meet Aerojet's industrial needs. The water is being transferred to State Water Contractors through their dry-year transfer program. The City understands those contractors are Alameda County Water District; County of Kings; Dudley Ridge Water District; Kern County Water Agency; Palmdale Water District; and Tulare Lake Basin Water Storage District.

This is to advise that the City of Folsom has approved the above
(Lead Agency or Responsible Agency)
