

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Sunnyvale Water Pollution Control Plant Master Plan - Cleanwater Center Project

Lead Agency: City of Sunnyvale, Public Works

Contact Name: Dennis Ng

Email: dng@sunnyvale.ca.gov Phone Number: 408-730-7515

Project Location: Sunnyvale Santa Clara  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

In the 2016 Program Environmental Impact Report (PEIR) for the Sunnyvale Water Pollution Control Plant (WPCP) Master Plan (Master Plan), the City proposed to approve the Sunnyvale Water Pollution Control Plant Master Plan for the Donald M. Somers Water Pollution Control Plant. The approved Master Plan serves as a long-term guide for upgrading and replacing the WPCP's facilities and operations to ensure that the WPCP can meet changing regulations, treat existing and projected wastewater flows reliably and cost-effectively, and increase recycled water production.

The City of Sunnyvale has proceeded with design of the Cleanwater Center Project (Project) which was called the Administration and Laboratory Building project in the PEIR. The project will provide a centralized workplace for WPCP administration, laboratory, operations, and maintenance staff on the north side of Carl Road, and replace the functionality of the existing Administration Building, Laboratory/Control Building, Operator/Maintenance Building, and Compliance Inspection Building.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Project would not result in new or more severe significant impacts than those attributable to the project described in the Sunnyvale WPCP Master Plan PEIR. Table 5-1 of the CEQA Addendum presents mitigation measures that apply to the Project for impacts to transportation, biological resources, air quality, biological resources, hazards and hazardous materials, and cultural resources. These include the following: 1) Mitigation Measure TR-1a: Truck Route Plan; 2) Mitigation Measure TR-1b: Implement a Temporary Traffic Control Plan; 3) Mitigation Measure C-TR-1: Implement Coordinated Transportation Management Plan; 4) Mitigation Measure AQ-2a: Implement BAAQMD Basic Construction Mitigation Measures; 5) Mitigation Measure BIO-1a: Reduce Impacts on Congdon's Tarplant; 6) Mitigation Measure BIO-2a: Worker Environmental Awareness Training; 6) Mitigation Measure BIO-2b: Minimization of Impacts on Water Quality; 7) Mitigation Measure BIO-2e: Burrowing Owl Measures; 8) Mitigation Measure BIO-2h: Nesting Bird Measures; 9) Mitigation Measure BIO-4a: Avoidance and Preservation of Trees; 10) Mitigation Measure BIO-4b: Master Plan Compensation for Impacts on Protected Trees; 11) Mitigation Measure 2a: Hazardous Building Materials Abatement; 12) Mitigation Measure HAZ-2b: Health and Safety Plan; 13) Mitigation Measure HAZ-2c: Soil and Groundwater Management Plan; 14) Mitigation Measure CUL-2: Unanticipated Discovery of Archaeological Resources; 15) Mitigation Measure CUL-3: Unanticipated Discovery of Paleontological Resources; and 16) Mitigation Measure CUL-4: Unanticipated Discovery of Human Remains.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

The City of Sunnyvale is the only responsible agency for the Project.
