Project Title: Water Diversions, Pond Evaluations, and Stream Crossings (Lake or Streambed Alteration Agreement No. EPIMS-HUM-19993-R1C)

Project Location (include county): The Project to be completed is located within the Salmon Creek watershed, approximately 4.7 miles southwest of the town of Myers Flat, County of Humboldt, State of California. The Project is located in Section 10, T03S, R02E, Humboldt Base and Meridian; in the Ettersburg U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Number 221-061-036-000; latitude 40.2207 N and longitude 123.9382 W at the first stream crossing (SC-1).

Project Description: The Project is limited to eight encroachments. Four encroachments are for water diversion from ponds and other surface diversions. Water is diverted for domestic use and irrigation. Work for the water diversion will include use and maintenance of the water diversion infrastructure. The four other proposed encroachments are to upgrade existing culverts and improve pond spillways. Work for these encroachments will include excavation, removal of the existing culverts, replacement with new properly sized culverts, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion. Pond spillway modification will require armored spillway plans that shall safely pass the 100-year flood flows.
